

TEMPORARY USE PERMIT APPLICATION FOR 1621 N. DIXIE  
HIGHWAY

POMPANO BEACH, FLORIDA

LANDSCAPE OF TEMPORARY USE CONTAINER EXPLANATION

The following information provides additional information about the screening of the Container being stored on the Property:

1. Landscape material will be placed around all four sides of the container and will include 24" x 24" plant material such as buttonwood, planted 24" on center. Scott's brown mulch will be applied to the bedding area to preserve the moisture for the plants.
2. Watering will be conducted from a watering truck or from a water source from a neighbor by hose on a periodic basis to assist the plant material with sustainable growth. After 3 months or more sustaining the plant material, a watering will continue less frequently to sustain the material.
3. Trimming and shaping the buttonwood hedge will be provided by the owner's landscape maintenance company.
4. Note that a curb cut on NW 16<sup>th</sup> Street is existing in order for vehicles to enter and exit.
