

To my concern,

We would like to connect the two lots that we have purchased, so it allows us to start using the parking lot for the main building/lot.

But between the two lots, is a public right-of-way that belongs to the city as a "back Alley."

Respectfully, we would like to request if you please would you consider.

Allowing us to merge the two lots and for the city to abandon this area as a right of way. As far as I know, there is nothing in this Alley that prevents it.

We hope you can consider our request.

Thank you so much for your time to review this process.
