Additional Services Offered:

PZ24-12000002

06/05/2024

1. Tree Assessment and Inventory:

- Conduct comprehensive assessments of the current tree population within the community.
- Create an inventory detailing species, age, health condition, maintenance requirements for each tree, and a comprehensive written report.

2. Tree Risk Assessment:

- Identify potential risks associated with trees, such as diseases, pests, structural weaknesses, and proximity to infrastructure. Using the Assessment based on ANSI A-300 (Part 9, 2017) and Best Management Practices – Tree Risk Assessment, Second Edition (2017)
- Provide recommendations for mitigation strategies to reduce risks and ensure public safety.

3. Tree Preservation Planning:

- Develop strategies for preserving significant trees during construction or development projects.
- Implement measures to protect trees from damage caused by construction activities.

4. Urban Forest Management:

- Design long-term management plans to enhance the health and diversity of the urban forest.
- Implement tree planting programs to increase canopy cover and promote biodiversity.

5. Tree Health Care:

- Offer diagnosis and treatment of tree diseases and pest infestations.
- Provide recommendations for proper tree care practices, including pruning, fertilization, and irrigation.

6. Community Engagement and Education:

- Conduct workshops and educational sessions for community members on tree care, benefits of urban trees, and environmental stewardship.
- Facilitate tree planting events to promote community involvement and ownership of the urban forest.
