MEMORANDUM NO. 22 – 42

DATE: October 3, 2022

TO: Gregory P. Harrison, City Manager

Via: A. Randolph Brown, Utilities Director

FROM: Shana Coombs, Utility Compliance & Efficiency Manager

SUBJECT: Execution of Contract with Line-Tec Inc., For Reuse Connection Services

The Utilities Department has contracted with Line-Tec Inc. to continue performing reuse connections for single family homes in our service areas (Pompano Beach and Lighthouse Point). The connection is performed using a minimally disruptive, underground boring process which is specialized. Our customers are enthusiastic about this method as their properties appear the same after the connection is completed.

The Utilities Department remains committed to our goal of increasing the number of single-family residential properties connected to reuse through our I Can Water program. Reuse connection is vital in securing a sustainable water supply for the future, as customers will use reuse water for irrigation and save finite potable water.

With the continuous expansion of the reuse distribution system, more funding is required to connect eligible properties. Thus, this 5-year contract has a not to exceed value of \$169,000 per year.

The account to be utilized for funding this contract is 420-7665-533.65-12 along with its corresponding CIP project number of 20-386.
