

To the authorities of the City of Pompano Beach,

I have been informed of the 42 luxury condominiums project Entourage-in-the-Sun to be built on N. Riverside Drive in Pompano Beach and asked to give my opinion on it.

Knowing the expertise, quality and impeccable reputation of the Developers of the project, I am sure that it is in total harmony with the objectives of the City of Pompano Beach which, thanks to its privileged localisation near the International airport and half way between the two great areas that are Miami and West Palm Beach, becomes more and more attractive for people who will want to establish themselves in South Florida, especially with the major investments that the City has made itself along the beach and the upcoming of new luxury residences and commercial services.
