SUBJECT: Atlantic Boulevard Interconnect Bid Award, Southeastern Engineering Contractors, Inc.

Bid E-16-17 was issued for the update of the potable water interconnection with the City of Margate Utility. The current interconnection arrangement does not meet industry standards. The new arrangement will meet industry standards and be more accessible. The lowest, responsive, responsible bidder was Southeastern Engineering Contractors, Inc.

The engineer of record, McCafferty Brinson Consulting reviewed the submittal and checked references. Attached is their memo recommending awarding the bid to Southeastern Engineering Contractors, Inc.

The City of Margate has agreed to pay fifty percent of the cost of construction.

Please proceed with the recommendation for bid award.
