

City of Pompano Beach, Florida

East Transit Oriented Corridor (ETOC)

Application to Amend the City of Pompano Beach Land Use Plan and the
Broward County Land Use Plan

March, 2016
Prepared by Jean Dolan, Inc. and RMA, Inc.
for the City of Pompano Beach
Department of Development Services

TABLE OF CONTENTS

1. Transmittal Information	4
2. Local Government Information	4
3. Application Information	5
4. Amendment Site Description	7
5. Existing and Proposed Uses	7
6. Analysis of Public Facilities and Services	10
A. Sanitary Sewer	10
B. Potable Water	12
C. Drainage	14
D. Solid Waste	16
E. Recreation and Open Space	17
F. Traffic Circulation	19
G. Mass Transit	22
H. Provision of Open Space	24
7. Analysis of Natural and Historical Resources	25
8. Affordable Housing	27
9. Land Use Compatibility	28
10. Hurricane Evacuation Analysis	28
11. Redevelopment Analysis	30
12. Intergovernmental Coordination	30
13. Consistency with City and County GOPs	30

EXHIBITS

Exhibit A	Legal Description
Exhibit B	Proposed Future Land Use Map of Amendment Area
Exhibit C	Adopted City Land Use Map of Amendment Area
Exhibit D	Adopted County Land Use Map of Amendment Area
Exhibit E	Sanitary Sewer Provider Letter
Exhibit F	Potable Water Provider Letter
Exhibit G	Drainage Provider Letter
Exhibit H	Solid Waste Provider Letter
Exhibit I	Inventory of Parks Related to BCPC Certification
Exhibit J	Mass Transit Route Information and Transit Provider Letter
Exhibit K	Historic Resources Letter
Exhibit L	City of Pompano Beach Goals, Objectives and Policies
Exhibit M	Broward County Goals, Objectives and Policies

1. TRANSMITTAL INFORMATION

- A. Letter of transmittal from municipal mayor or manager documenting that the local government took action by motion, resolution or ordinance to transmit a proposed amendment to the Broward County Land Use Plan. Please attach a copy of the referenced motion, resolution or ordinance. The local government's action to transmit must include a recommendation of approval, denial or modification regarding the proposed amendment to the Broward County Land Use Plan.

Response: To be provided.

- B. Date local governing body held transmittal public hearing.

Response: To be provided.

- C. Whether the amendment area is within an Area of Critical State Concern or proposed for adoption under a joint planning agreement pursuant to Section 163.3171, Florida Statutes.

Response: The amendment area is *not* within an Area of Critical State Concern or proposed for adoption under a joint planning agreement pursuant to Section 163.3171, Florida Statutes.

- D. Whether the amendment is one of the following:

- *Development of Regional Impact
- *Small scale development activity (Per Florida Statutes)
- *Emergency (please describe on separate page)
- *Other amendments which may be submitted without regard to Florida statutory limits regarding amendment submittals (Brownfield amendments, etc.)

Response: The amendment is not related to any of the above specifications.

2. LOCAL GOVERNMENT INFORMATION

- A. Local land use plan amendment or case numbers.

Response: The Local Land Use Plan amendment number is 16-9200000__ and the City's identification number for the proposed County amendment for this site is 16-9100000__.

- B. Proposed month of adoption of local land use plan amendment.

Response:

The proposed month of adoption by the City of Pompano Beach is May, 2017.

The estimated month of adoption by the County Commission is April 2017.

- C. Name, title, address, telephone, facsimile number and e-mail of the local government contact.

Robin M. Bird, AICP
Development Services Director
robin.bird@copbfl.com
City of Pompano Beach
Development Services Department
100 W. Atlantic Blvd.
Pompano Beach, Florida 33060
Phone (954)786-4634
Fax (954) 786-4666

Jean E. Dolan, AICP
Planning Consultant
jdolan10@comcast.net

- D. Summary minutes from the local planning agency and local government public hearing of the transmittal of the Broward County Land Use Plan amendment.

Response: To be provided.

- E. Description of public notification procedures followed for the amendment by the local government.

Response: The City provided several options for public information at hearings, workshops and community meetings. A 500' mailing radius was used to distribute public notice for all official public hearings. Newspaper advertisements were also provided in accordance with Chapter 154 of Pompano's Code of Ordinances and as required by Chapter 163 for large scale amendments.

3. APPLICANT INFORMATION

- A. Name, title, address, telephone, facsimile number and e-mail of the applicant.

Robin M. Bird
Development Services Director
City of Pompano Beach
100 West Atlantic Boulevard
Pompano Beach, Florida 33060
Email: robin.bird@copbfl.com
Phone (954)786-4634

- B. Name, title, address, telephone, facsimile number and e-mail of the agent.

Jean E. Dolan, AICP
Jean Dolan, Inc.
Planning Consultant
617 NW 30th Street
Wilton Manors, FL
[Email jdolan10@comcast.net](mailto:jdolan10@comcast.net)
Phone: (954) 253-9270

C. Name, title, address, telephone, facsimile number and e-mail of the property owner.

There are many owners within the boundaries of the proposed ETOC. The city staff and consultant listed above will address any issues related to this amendment.

D. Planning Council fee for processing the amendment in accordance with the “Fee Schedule for Amendments to the Broward County Land Use Plan and Local Land Use Elements.”

Response: The fee for processing the amendment has been included with this application.

E. Applicant’s rationale for the amendment. The Planning Council requests a condensed version for inclusion in the staff report (about two paragraphs). Planning Council staff may accept greater than two paragraphs, if submitted in an electronic format.

Response: The City has been planning for mixed use redevelopment along the East Atlantic Corridor since the year 2001 when the East CRA was created and the first CRA Plan was adopted. Many planning efforts have taken place since that time, all of which have concluded that mixed use redevelopment is the most appropriate direction for redevelopment of the East Atlantic Corridor. The sequence of events is summarized as follows:

- 2000 – Planning efforts begin for the creation of the East CRA.
- 2001 – East CRA is created and first East CRA Plan is adopted with mixed use vision.
- 2004 – City attempts land use plan amendment first to Regional Activity Center then to Local Activity Center. Amendments did not pass at the local level primarily due to inclusion of the barrier island in the proposed redevelopment area.
- 2008 – Urban Land Institute Advisory Panel recommends mixed- use development on Atlantic Boulevard; lower-scale development between the medium density and single family; creating great public spaces that exemplify and promote pedestrian activity; maintaining a small town feel by encouraging pedestrian scale (not big box) commercial uses.
- 2010 – East CRA amends Master Plan
- 2011 – East CRA prepares Parking and Massing Analysis
- 2011-13 – Master Plan implementation projects in ETOC study area completed including Harbor Village site improvements and East Atlantic Boulevard Complete Street improvements. New Publix built using TOD design principles.
- 2013 – Renaissance Planning Group Corridor Study recommends mixed use Land Use Plan Amendment to enable mixed use redevelopment in the East Atlantic Boulevard corridor.

The current LUPA request for the TOC land use designation does not include any portion of the barrier island. It also includes the connector between the East CRA and the Downtown Pompano Transit Oriented Corridor which was approved in 2012.

4. AMENDMENT SITE DESCRIPTION

- A. Concise written description of the general boundaries and gross acreage (as defined by BCLUP) of the proposed amendment.

Response: The ETOC is a total of 279 gross acres bounded on the east by the Intracoastal Waterway, at the western most point by NE 2nd Avenue. The northern and southern boundaries bordering Atlantic Boulevard are varied with the furthest northern extent being generally NE 6th Street and the furthest southern extent being generally SE 4th Street.

- B. Sealed survey, including legal description of the area proposed to be amended.

Response: The sketch and legal description is provided as *Exhibit A*.

- C. Map at a scale of 1"=300' clearly indicating the amendment's location, boundaries and proposed land uses. (Other scales may be accepted at the discretion of the Planning Council Executive Director. Please contact the Planning Council office in this regard, prior to the submittal of the application).

Response: The Map clearly indicating the amendment's location, boundaries and proposed land use is provided as *Exhibit B*. The amendment area is very large and will not fit in this document at a 1" = 300' scale.

5. EXISTING AND PROPOSED USES

- A. Current and proposed local and Broward County Land Use Plan designation(s) for the amendment site. If multiple land use designations, describe gross acreage within each designation.

Response: The City of Pompano Beach and Broward County Adopted Future Land Use designations for the property include Commercial, Medium Residential, Low Residential, Community Facility and Open Space and Recreation. The City and County Land Use Maps are provided in Exhibits C and D.

CURRENT LAND USE DESIGNATIONS IN THE ETOC	
City and County Land Use Categories	Gross Acreage
Commercial ⁽¹⁾	178.5
Medium Density Residential (16)	71.0
Low Density Residential (5)	20.0
Community Facility (Commercial on County Plan)	5.0
Open Space Recreation (McNab Park)	4.5
Total Acreage	279 acres

(1) Total Commercial on County Plan is 183.5 acres. Note that one acre of this land use designation is developed as a small park known as the 220 E. Atlantic Blvd Park. Total park acreage moving forward will be presented as 5.5 acres based on existing park use.

The proposed land use designation for both plans is Transit Oriented Corridor (TOC).

B. Current land use designations for the adjacent properties.

Response: The current adopted City and County land use designations of the surrounding properties are:

Land Use Designations	North	South	East	West
City Future Land Use Map	TOC	Water	Water (ICW)	TOC
	Low 5	38 du/ac (Koi)		
	LM 10	Med 16		
	CF	CF		
	OR (Park)	Low 5		
	Commercial	Commercial		
	Med 16			
County Land Use Plan	TOC	Water	Water (ICW)	TOC
	Low 5	Low 5		
	LM 10	38 du/ac (Koi)		
	CF	Med 16		
	Rec & Open Space	Low 5		
	Med 16	Commercial		
		CF (Cemetery)		

C. Indicate if the flexibility provisions of the Broward County Land Use Plan have been used for adjacent areas.

Response: It has not been determined if flex units were allocated to any of the adjacent areas, however, 175 residential units have been built within the ETOC in the area designated for commercial land use. It could be possible that some of these residential uses were in place prior to the designation of the property to Commercial land use. It has not been definitively determined how many of the 175 existing units built in Commercial are the result of flex unit allocations. For purposes of the basket of rights for the ETOC, these 175 units were included as existing development rights and are tallied as already built units.

D. Existing use of amendment site and adjacent areas.

Response: The primary use in the amendment area is single story commercial buildings (retail and office) along the Atlantic Boulevard frontage with relatively low density multifamily and a small amount of single family residential adjacent to the commercial frontage. A few churches are located in the Community Facility land use category and two parks are located in the district. Along US 1, uses also are predominantly commercial with one private college (Everest) in a multi-story building near the northern end of the district. Duplex, townhouse and condominiums are located between the commercial along the US 1 frontage and the single family neighborhoods outside the district. Pompano High School, Pompano Elementary School and Community Park are located adjacent to the district to the north on the west side of Federal Highway.

- E. Proposed use of the amendment site including proposed square footage* for each non-residential use and/or dwelling unit count. For RAC, LAC, TOC, TOD and MUR amendments, please provide each existing non-residential use square footage and existing dwelling units for amendment area.

Response:

TABLE 1 - PROPOSED MAXIMUM DEVELOPMENT

ETOC Basket-of-Rights	Type of Use	Square Footage and Units (maximum)	Square Footage and Units (Built)
Commercial (General Business)	Retail/Restaurant/Office Or any other permitted nonresidential uses	7,000,000	1,759,384
Residential Units	Multi-Family	3,718	1,046
OR (Park) or Park Use	Open Space/ Recreation	5.5 Ac (Minimum)	5.5 Ac
Community Facility	Church/School	5.0 Ac (Minimum)	5.0 Ac

- F. Maximum allowable development per local government land use plans under existing designation for the site, including square footage* for each non-residential use and/or dwelling unit count.

Response:

Table 2 – Adopted Entitlements By Land Use Category

ETOC Basket-of-Rights	Type of Use	Square Footage and Units (maximum)
Commercial (General Business)	Retail/Restaurant/Office	44,739,280
Residential Units	Single Family and Multi-Family	1,319 (273 unbuilt)
OR (Park)	Open Space/ Recreation	5.5 Ac
Community Facility	Church/School	5.0 Ac

Table 3 – Net Change in Entitlements By Land Use Category

ETOC Basket-of-Rights	Type of Use	Net Change in Square Footage and Units
Commercial (General Business)	Retail/Restaurant/Office	-37,739,280 SF
Residential Units	Single Family and Multi-Family	2,399 Units
OR (Park)	Open Space/ Recreation	No change below minimum
Community Facility	Church/School	No change below minimum

- G. Indicate if the amendment is part of a larger development project that is intended to be developed as a unit such as a site plan, plat or Development of Regional Impact. If so, indicate the name of the development; provide the site plan or plat number; provide a location map; and, identify the proposed uses.

Response: The amendment is not part of a larger development project.

6. ANALYSIS OF PUBLIC FACILITIES AND SERVICES

The items below must be addressed to determine the impact of an amendment on existing and planned public facilities and services. Provide calculations for each public facility and/or service. If more than one amendment is submitted, calculations must be prepared on an individual and cumulative basis.

A. Sanitary Sewer Analysis

1. Identify whether the amendment site or a portion is currently and/or proposed to be serviced by septic tanks.

Response: The East TOC is served by City of Pompano water and sewer services and there is no intention to utilize septic tanks.

2. Identify the sanitary sewer facilities serving the amendment site including the current plant capacity, current plus committed demand on plant capacity, and planned plant capacity.

Response: The City of Pompano Beach provides for sanitary sewer collection only. The City's collection system consists of gravity lines, pump stations and force mains. Much of the sewer collection system is comprised of older clay tile pipe. Wastewater collection lines are continually being updated throughout the City as needed. There are no specific wastewater collection system improvements planned for the ETOC study area at this time.

All wastewater collected is pumped to the Broward County North District Regional Wastewater Treatment Plant, which is located within the City. The County Plant receives wastewater from Pompano, as well as other County municipalities.

The City has a Large User Agreement with Broward County to provide treatment for 17 million gallons per day of sanitary sewer flow at the North Regional Wastewater Treatment Plant (NRWTP). This is equal to less than 18% of the NRWTP treatment capacity.

The City's average daily demand in 2015 was 12.9 million gallons per day, which is 76% of the WWTP Plant's capacity. This leaves 4 mgd for future growth and full buildout of the basket of rights being requested for the ETOC will require less than 1 mgd of wastewater treatment capacity.

The Sewer System is under capacity and funded from user fees, the City, therefore, will be able to maintain its sanitary sewer LOS standards with the proposed redevelopment of the ETOC.

3. Identify the net impact on sanitary sewer demand resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot* or dwelling unit.

Response: In the context of the East TOC, the difference between what the current Commercial and Residential land use designations will allow and what the proposed TOC land use designation's basket-of-rights will allow is a reduction in sewer generation of 3.5 million gallons per day.

Table 4 - Sanitary Sewer Demand - Adopted Land Use

Adopted Land Use	Multiplier GPD*	Adopted Land Use GPD
Commercial (restaurant, retail, office)	44,739,280 SF X 0.1 GPD / GSF	4,473,928
Residential	1,319 x 300 GPD/DU	395,700
Total Adopted Land Use Demand = 4.9 million gallons per day (mgd)		

* GPD Multiplier Based On Broward County Environmental Protection Agency: A Consulting Engineer's Guide for a Wastewater Collection/Transmission System Construction License Application Revised 10/07.

Table 5 - Sanitary Sewer Demand - Proposed ETOC Land Use

Proposed Land Use	Multiplier GPD*	Proposed Land Use GPD
Commercial (retail, office, restaurant)	7,000,000 X 0.1 GPD / GSF	700,000
Residential Units	2,399 x 300 GPD/DU	717,700
Total Proposed Land Use Demand = 1.4 million gallons per day (mgd)		

* GPD Multiplier Based On Broward County Environmental Protection Agency: A Consulting Engineer's Guide for a Wastewater Collection/Transmission System Construction License Application Revised 10/07.

- Identify the projected plant capacity and demand for the short and long range planning horizons as identified within the local government's adopted comprehensive plan. Provide demand projections and information regarding planned plant capacity expansions including year, identified funding sources and other relevant information.

Response: The Broward County North District Regional Wastewater Treatment Plant is located in the City of Pompano Beach. The Plant has a licensed treatment capacity of 95 MGD, which has been reserved by large users, including the City of Pompano Beach. According to the Broward County Domestic Wastewater Program summary for 2015, the annual average daily flow at the NRWTP was 69.17 MGD which is 72.8% of the total licensed capacity. Total flow (average daily plus committed flows as of December 29, 2015, is 71.4 MGD or 75.16% of total licensed capacity.

Table 6 - Projected Sanitary Sewer Demand and Projected Plant Capacity

	2015	2020	2030
Projected Pompano Demand	12.9 MGD	14.5 MGD	16 MGD
Projected NRWTP Plant Capacity Reserved for Pompano	17 MGD	17 MGD	17 MGD

Source: Demand based on 2% annual average growth rate and Capacity based on current large user agreement.

5. Correspondence from sanitary sewer provider verifying the information submitted as part of the application on items 1-4 above. Correspondence must contain name, position and contact information of party providing verification.

Response: The letter from the sanitary sewer provider is included as *Exhibit E*.

B. Potable Water Analysis

1. Data and analysis demonstrating that a sufficient supply of potable water and related infrastructure will be available to serve the proposed amendment site through the long-term planning horizon, including the nature, timing and size of the proposed water supply and related infrastructure improvements.

Response: The City's Water Supply Facility Work Plan concludes that there will be sufficient supply of potable water through 2025 which is the term of the current SFMWD Consumptive Use Permit. The 2015 adjusted raw water demand is approximately 14.97 MGD and is projected to increase to 15.43 MGD by 2025. The City's Consumptive Use Permit with the SFWMD provides for a withdrawal capacity of 17.75 MGD through 2025. Due to the Reuse Water Credit the City receives for operating their Reclaimed Water Facility, the Raw Water Reserve surplus for 2025 will increase to 3.15 MGD.

2. Identify the facilities serving the service area in which the amendment is located including the current plant capacity, current and committed demand on the plant and South Florida Water Management District (SFWMD) permitted withdrawal, including the expiration date of the SFWMD permit.

Response: The majority of the City is provided with potable water from the City's water system. The City's Lime Softening Plant (40 MGD) and Membrane Plant (10 MGD) have a total design capacity of 50 MGD and a 2015 adjusted finished water demand of 13.86 MGD.

The City's Water Use Permit with the SFWMD provides for 17.7 MGD withdrawal.

The City began operating a Water Reuse Facility in 1989. The initial reuse capacity was 2.5 MGD utilizing effluent removed from the Broward County North Regional Wastewater Plant outfall pipe prior to discharge. The City completed an expansion of the Reuse Facility to 7.5 MGD capacity in 2002. The Reuse Facility and the construction of the Western Wellfield has halted the western movement of the salt water intrusion zone, thereby protecting the City's eastern wells.

The City has adequate capacity to serve the Comprehensive Plan's anticipated 2015 population (which won't be realized until 2022 based on the current growth rate) due in part to the current plant's available capacity and the continued growth of the Reuse Facility for irrigation needs. The City is installing additional distribution lines for the reuse facility to further reduce the potable water used for irrigation purposes.

Because the Water System is under capacity and funded from user fees, the City will be able to maintain LOS standards.

3. Identify the wellfield serving the service area in which the amendment is located including the permitted capacity, committed capacity, remaining capacity and expiration date of the permit.

Response: The City owns and operates a water supply facility which provides potable water service to the amendment area.

The South Florida Water Management District issued a Use of Water Permit No. 06-00070-W on September 14, 2005 to the City of Pompano Beach. Permitted capacity for the City of Pompano Beach wellfield was 19.4 MGD through 2010. Permitted capacity after 2010 is 17.7 MGD. The permit expires in September of 2025. As of August 10, 2010, the annual allocation shall not exceed 6,748 million gallons.

4. Identify the net impact on potable water demand, based on adopted level of service resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot* or dwelling unit.

Response: The following tables show the water demand based on what can be developed under the current land use designation and what can be developed under the proposed land use designation.

Table 7 - Potable Water Demand - Adopted Land Use Designation

Adopted Land Use	Multiplier GPD*	Adopted Land Use GPD
Commercial (restaurant, retail, office)	44,739,280 SF X 0.1 GPD / GSF	4,473,928
Residential	1,319 x 300 GPD/DU	395,700
Total Adopted Land Use Demand = 4.9 million gallons per day (mgd)		

* GPD Multiplier Based On Broward County Environmental Protection Agency: A Consulting Engineer's Guide for a Wastewater Collection/Transmission System Construction License Application Revised 10/07.

Table 8 - Potable Water Demand – Proposed ETOC Land Use Designation

Adopted Land Use	Multiplier GPD*	Adopted Land Use GPD
Commercial (restaurant, retail, office)	7,000,000 SF X 0.1 GPD / GSF	700,000
Residential	2,399 x 300 GPD/DU	717,700
Total ETOC Proposed Land Use Demand = 1.4 million gallons per day (mgd)		

* GPD Multiplier Based On Broward County Environmental Protection Agency: A Consulting Engineer's Guide for a Wastewater Collection/Transmission System Construction License Application Revised 10/07.

5. Identify the projected capacity and demand for the short and long range planning horizons as identified within the adopted comprehensive plan. Provide demand projections and information regarding planned wellfield and planned plant capacity expansions including year, funding sources and other relevant information. If additional wellfields are planned, provide status including the status of any permit applications.

Response: The City of Pompano Beach Water Treatment plants have a combined designed capacity of 50.0 MGD with a 2015 demand of 13.86 GPD. There are no plans for expansion at this time.

6. Correspondence from potable water provider verifying the information submitted as part of the application on items 1-5 above. Correspondence must contain name, position and contact information of party providing verification.

Response: The letter from the potable water provider is included as *Exhibit F*.

C. Drainage Analysis

1. Provide the adopted level of service standard for the service area in which the amendment is located.

Response: Broward County Environmental Protection and Growth Management Department reviews and approves all stormwater plans within the City to ensure that level of service standards are being met. The City has adopted the following level of service standards for stormwater per the South Florida Water Management District requirements:

- Building Structures – The flood level shall not exceed the finish floor elevation of all building structures within the study area during the 100-year, 3-day storm event.
- Roadways and Parking Lots – Stormwater ponding shall not encroach onto any roadway centerlines during the 10-year, 1-day storm event. Stormwater ponding shall not encroach onto any roadway edge of pavement during the 5-year, 1-day storm event.
- Outfall Discharges – The outfall discharge shall not exceed the allowable peak discharge during a 25-year, 3-day rainfall event as defined by the existing permit requirements. If the existing outfalls do not have a maximum discharge assigned by existing permits, the regulatory agencies will require “pre-development” versus “post-development” discharge analysis to ensure the stormwater discharge into adjacent surface waters does not increase after the proposed construction.

These regulatory requirements are applied to all new and redevelopment projects, thereby maintaining consistency with the level of service standards for stormwater.

2. Identify the drainage district and drainage systems serving the amendment area.

Response: The amendment area is located within the jurisdiction of the South Florida Water Management District. The primary drainage system that serves the City is comprised of drainage canals, water control facilities, and surface lakes. The primary drainage system is maintained and operated by the South Florida Water Management District. The primary drainage system

discharges excess storm water from storm events into the Atlantic Ocean via the Intracoastal Waterway. The primary drainage system also provides recharge of the Biscayne Aquifer, the primary raw water source. The secondary drainage system that serves the City is comprised of drainage pipe, catch basin inlets, manholes, control structures, exfiltration trench, and retention areas. The secondary drainage system is maintained and operated by the City of Pompano Beach. The secondary drainage system discharges excess storm water from storm events into the primary drainage system.

3. Identify any planned drainage improvements, including year, funding sources and other relevant information.

Response: The City of Pompano Beach has recently completed a Citywide Stormwater Management Master Plan (SMMP), which includes a list of recommended stormwater capital improvement projects throughout the City. There are two specific projects identified within the ETOC study area. Drainage improvements to SE 28th Avenue are scheduled to begin in 2021 and to SE 15th Avenue in 2022. The projects have not yet been designed. The funding for these projects is coming from the City's stormwater utility fund.

4. Indicate if a Surface Water Management Plan has been approved by, or an application submitted to, the SFWMD and/or any independent drainage district, for the amendment site.

Identify the permit number(s), or application number(s) if the project is pending, for the amendment site. If an amendment site is not required to obtain a SFWMD permit, provide documentation of same.

Response: There is no SFWMD permit for the district. Permits will be obtained by developers as they propose specific projects.

5. If the area in which the amendment is located does not meet the adopted level of service and there are no improvements planned (by the unit of local government or drainage authority) to address the deficiencies, provide an engineering analysis which demonstrates how the site will be drained and the impact on the surrounding properties. The information should include the wet season water level for the amendment site, design storm elevation, natural and proposed land elevation, one hundred year flood elevation, acreage of proposed water management retention area, elevations for buildings, roads and yards, storage and runoff calculations for the design storm and estimated time for flood waters to recede to the natural land elevation.

Response: The City's SMMP is addressing the existing drainage deficiencies in the ETOC area. Redevelopment activity within the amendment area will improve the drainage conditions by ensuring all redevelopment meets the adopted level of service standards by meeting finished floor and crown of road elevation requirements and utilizing modern retention and exfiltration methods as approved by the City.

6. Correspondence from local drainage district verifying the information submitted as part of the application on items 1-5 above. Correspondence must contain name, position and contact information of party providing verification.

Response: The letter from the local drainage district is included as *Exhibit G*.

D. Solid Waste Analysis

1. Provide the adopted level of service standard for the municipality in which the amendment is located.

Response: The following level of service standards are provided in the City of Pompano Solid Waste Element:

Residential	8.9 lbs. per unit per day
Industrial/Commercial	
Factory/Warehouse	2 lbs per 100 sq.ft. per day
Office Building	1 lbs per 100 sq.ft. per day
Department Store	4 lbs per 100 sq.ft. per day
Supermarket	9 lbs per 100 sq.ft. per day
Restaurant	2 lbs per meal per day
Drug store	5 lbs per 100 sq.ft. per day
Hotel	8.9 lbs per day
Institution	
Grade School	10 lbs per room per day plus 1/4 lb. per student per day
Middle/High School	8 lbs per room per day plus 1/4 lb. per student per day
Hospital	8 lbs per bed per day
Nursing Home	3 lbs. per person per day

Source: City of Pompano Beach Comprehensive Plan 2010 (Solid Waste Element) and Broward County Solid Waste Element.

2. Identify the solid waste facilities serving the service area in which the amendment is located including the landfill/plant capacity, current and committed demand on the landfill/plant capacity and planned landfill/plant capacity.

Response: The City contracts with Waste Management, Inc., to collect and dispose of solid waste material and garbage within the City. The majority of material collected within the City is transported to the North Broward Resource Recovery Plant (NBRRP) and the Broward County Contingency Landfill (BIC).

The facilities that serve the subject area are the Broward County North and South Resource Recovery Facilities (NRRF and SRRF) and the Broward County Interim Contingency Landfill (BIC). According to the Broward County 2009 Solid Waste Element update, the capacity of the NRRF and SRRF is 1.6 million tons per year. The BIC design capacity is 4.8 million tons. The demand at the resource recovery facilities is 1.1 million tons per year and the demand at the BIC is 80,000 tons per year.

The City has implemented a recycling program to reduce the quantity of solid waste. In 2015, the quantity of solid waste generated in the City was estimated at 414 tons per day based on the LOS of 7.8 pounds per person per day.

3. Identify the net impact on solid waste demand resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot* or dwelling unit.

Response: As calculated in Tables 9 and 10, the ETOC will decrease the solid waste demand by nearly 3.4 million lbs/day due to the net decrease in nonresidential development as compared to the entitlements vested under the current land use designations.

Table 9 - Solid Waste Demand - Adopted Land Use Designation

Adopted Land Use	Multiplier	Total Adopted Land Use lbs/day
Commercial (restaurant, retail, office)	44,739,280 X 9.0 lbs/100 sf/day	4,026,535
Residential Units	1,319 X 8.9 lbs/unit/day	11,739
Total Adopted Land Use Demand = 4,038,274 lbs/day		

* Multiplier Based On City of Comprehensive Plan 2010 Solid Waste LOS Standards.

Table 10 - Solid Waste Demand - Proposed ETOC Land Use

Proposed Land Use	Multiplier	Total Proposed Land Use lbs/day
Commercial (restaurant, retail, office)	7,000,000 X 9.0 lbs/100 sf/day	630,000 lbs/day
Residential Units	2,399 X 8.9 lbs /day /unit	21,351 lbs/day
Total Proposed Land Use Demand = 651,351 lbs/day		

* Multiplier Based On City of Comprehensive Plan 2010 Solid Waste LOS Standards

4. Correspondence from the solid waste provider verifying the information submitted as part of the application on items 1-3 above. Correspondence must contain name, position and contact information of party providing verification.

Response: The letter from the solid waste service provider is included as *Exhibit H*.

E. Recreation and Open Space Analysis

1. Provide the adopted level of service standard for the service area in which the amendment is located and the current level of service.

Response: The County requires every city to maintain a minimum level of service of 3 acres of parks per 1,000 residents. The current park and recreation levels of service for the City of

Pompano Beach based on a build-out population estimate of 145,575 and the current park acreage (as calculated by the City based on the County's requirements) of 506.45 acres is 3.48 acres per 1,000 residents. The current approved Inventory of Parks, which is on file with the Broward County Planning Council, has been updated to reflect the population increase in the ETOC projected over the next 15 years and is provided in Exhibit I. Full occupancy of the 2,399 additional units in the ETOC will increase the City's buildout population to 150,258. With no increase in park acreage, the City's LOS for Parks will be 3.37 acres/1,000 which exceeds the 3-acre per thousand LOS standard.

2. Identify the parks serving the service area in which the amendment is located including acreage and facility type, e.g. neighborhood, community or regional park.

Response: There are two parks within the ETOC boundary, McNab Park on the east end of the District and 220 East Atlantic Park on the west end of the District. In addition, and perhaps more importantly, the ETOC is located for easy access to some of the best parks and recreational opportunities the City's excellent Park and Recreation system has to offer.

PARKS AND OPEN SPACES SERVING THE ETOC

Park Name	Mini-Park (Ac)	Neighborhood Park (Ac)	Community Park (Ac)	Open Spaces (Ac)
McNab Park*	2.5			
Canine Corner Dog Park	1.8			
Founders Park	1.7			
Kester Park		8.4		
Community Park			71.1	
Public Beach Park			32.4	
Pompano Beach Cemetery				17
Pompano Golf Course				372
Downtown Park				0.1
220 East Atlantic Park*				0.9
Pompano Canal Park				0.2
SE 11 th Avenue Park				0.2
North Riverside Dr. Park				0.4
Total	6 acres	8.4 acres	103.5 acres	390.8 acres

*Inside ETOC boundary.

The above table does not include the large school campus just north of the ETOC adjacent to Community Park which includes the Pompano Elementary and Pompano High School grounds which offers another 10.9 acre site which the City has an interlocal agreement with the School Board to use for recreational purposes. Pompano High School is also the City's designated hurricane evacuation shelter.

F. Traffic Circulation Analysis

1. Identify the roadways impacted by the proposed amendment and indicate the number of lanes, current traffic volumes, adopted level of service and current level of service for each roadway.

Response: The roadways impacted by the amendment and their current and projected conditions is provided on the table on the following page. This data is directly from the County's roadway capacity and Level of Services Analysis table.

The level of service standards maintained by Broward County and the City of Pompano Beach are summarized below.

Broward County

The amendment site is located within the Northeast Concurrency District which is subject to the provisions of the Broward County Transit-Oriented Concurrency System (TOCS) which does not rely on traditional LOS "letters" to measure concurrency. Payment of a transit fee, after applying any credits, is sufficient to meet concurrency within this district.

City of Pompano Beach

The City of Pompano Beach recognizes the County's level of service standards in its adopted Comprehensive Plan for County roads and the State's LOS standards for State Roads. The City adopted the County's TOCS for all other concurrency related purposes in its Comprehensive Plan. The City as recently adopted a Completes Streets manual and Conceptual Master Plan (R2014-297) which reinforces the City's commitment to transit oriented development and the focus on the pedestrian in future street design and transit for future mobility investments.

2. Identify the projected level of service for the roadways impacted by the proposed amendment for the short (five year) and long range planning horizons. Please utilize average daily and p.m. peak hour traffic volumes per Broward County Metropolitan Planning Organization plans and projections.

Response: The projected change in traffic with the proposed ETOC amendment is negative. See response to #3 below.

IDRoadwaySegment			2013				2013				2035				2035

3. Planning Council staff will analyze traffic impacts resulting from the amendment. You may provide a traffic impact analysis for this amendment – calculate anticipated average daily and p.m. peak hour traffic generation for the existing and proposed land use designations. If the amendment reflects a net increase in traffic generation, identify access points to/from the amendment site and provide a distribution of the additional traffic on the impacted roadway network for the short (5 year) and long range planning horizons.

Response: The amendment to the ETOC basket of rights results in a net decrease in PM Peak Hour traffic for the study area as compared to the adopted land use entitlements by 54,984 trips.

The adopted commercial entitlements are based on 10-story buildings (60% lot coverage and 105 foot height) which is allowed by the Comprehensive Plan. For purposes of traffic generation, it is assumed that the development would be ground floor retail and 9 floors of office (10% retail and 90% office). The calculation of trip generation for the adopted land use entitlements based on these assumptions is provided in the table below.

Table 11 – Trip Generation - Adopted Land Use Designation

Land Use			ITE Code	Daily Rate	Daily Trips	PM Rate	PM Trips
Commercial 44,739,280 s.f.	Retail	10%	820	42.7 /k.s.f.	191,037	3.71 /k.s.f.	16,598
	Office	90%	710	11.03 /k.s.f.	444,127	1.49 /k.s.f.	59,995
Residential 1,319 d.u.			230	5.81 /d.u.	7,663	0.52 /d.u.	686
TOTAL					642,827		77,279

Source: Trip Generation 9th Edition, Institute of Traffic Engineers.

The ETOC is expected to include mainly ground floor retail with upper story residential. Some stand-alone office buildings with or without retail may also be provided. For trip generation assumptions, the office square footage was considered the primary land use being replaced by the residential uses and the amount of retail was held constant in both the adopted land use and the ETOC assumptions.

Table 12 – Trip Generation - Proposed ETOC Land Use

Land Use		ITE Code	Daily Rate	Daily Trips	PM Rate	PM Trips
Retail 4,473,928 s.f.		820	42.7 /k.s.f.	191,037	3.71 /k.s.f.	16,598
Office 2,526,072 s.f.		710	11.03 /k.s.f.	27,863	1.49 /k.s.f.	3,764
Residential 3,718 d.u.		230	5.81 /d.u.	21,602	0.52 /d.u.	1,933
TOTAL				240,502		22,295

Source: Trip Generation 9th Edition, Institute of Traffic Engineers.

Note: This trip generation does not take any trip capture typically expected in a mixed use land use scenario into account which will very likely reduce vehicular trips from this project.

4. Provide any transportation studies relating to this amendment, as desired.

Response: No additional transportation studies are presented at this time. A local traffic impact analysis evaluating site development impacts will be prepared at the time of site plan review.

G. Mass Transit Analysis

1. Identify the mass transit modes, existing and planned mass transit routes and scheduled service (headway) serving the amendment area within one-quarter of a mile.

Response:

Existing Broward County Bus Transit Service

- **Broward County Transit Route 10** operates on US 1 linking Fort Lauderdale and Boca Raton. It makes stops at Broward Central Terminal in Downtown Fort Lauderdale, Sunrise Boulevard and NE 15th Avenue, Oakland Park Boulevard and US 1, NE 62nd Street and US 1, Copans Road and US 1 (City Center). Between Bayview Drive and Copans Road, the bus makes 30 stops (15 bus stops in each direction) along US 1 in Pompano. Route 10 operates on twenty minute headways (as of 2015). The stop at Pompano City Center links passengers to routes 11 and 83. According to the 2016-2025 Transit Development Plan Update, Annual Report (Oct. 2015), the ridership on Route 10 was down slightly, -0.2%, for the year ending in June 2015 as compared to the same period ending in June 2014.
- **Broward County Transit Route 11** travels through Pompano primarily on A1A from Pompano City Center at US1 and Copans, to Las Olas Boulevard via A1A through Pompano, from Las Olas to Downtown Fort Lauderdale then north to US 441 and Commercial Boulevard connecting to the 441 Breeze. Route 11 operates on 35 minute headways during the week. According to the 2016-2025 Transit Development Plan Update, Annual Report (Oct. 2015), the ridership on Route 11 was up 2.8%, for the year ending in June 2015 as compared to the same period ending in June 2014.
- **Broward County Transit Route 42** operates on Atlantic Boulevard linking Atlantic Boulevard & A1A and Atlantic Boulevard & Coral Ridge Drive. It makes stops at Atlantic Boulevard & A1A, Martin Luther King & Dixie Highway (the NE Transit Center), Atlantic Boulevard & Powerline Road, Atlantic Boulevard & Highway 441, Atlantic Boulevard & University Drive, and Atlantic Boulevard & Coral Ridge Drive. Route 42 operates on half hour headways. Within the ETOC on Atlantic Boulevard Route 42 makes 22 stops (11 bus stops in each direction) The stop at the NE Transit Center links passengers to Routes 20, 50 and 60. According to the 2016-2025 Transit Development Plan Update, Annual Report (Oct. 2015), the ridership on Route 42 was up slightly, 1% for the year ending in June 2015 as compared to the same period ending in June 2014.
- **Broward County Transit Route 50** connects Downtown Fort Lauderdale and Deerfield Beach through Pompano along Dixie Highway. Route 50 operates on 30 minute headways during the week. According to the 2016-2025 Transit Development Plan

Update, Annual Report (Oct. 2015), the ridership on Route 50 was down slightly, -2.9%, for the year ending in June 2015 as compared to the same period ending in June 2014. Headway improvement from 30 minutes to 20 minutes is planned for this route.

- **Broward County Transit Route 60** travels along the Education Corridor (Dr. Martin Luther King, Jr. Blvd) from the NE Transit Center in Downtown Pompano to Coconut Creek connecting to the 441 Breeze. Route 60 also connects Pompano to Downtown Fort Lauderdale via Andrews Avenue. Route 60 operates on 30 minute headways during the week. According to the 2016-2025 Transit Development Plan Update, Annual Report (Oct. 2015), the ridership on Route 50 was down slightly, -3%, for the year ending in June 2015 as compared to the same period ending in June 2014. Headway improvement from 30 minutes to 20 minutes is planned for this route.

Existing City of Pompano Beach Community Green and Blue Transit Routes

- The Green Community bus service route is provided by both the City of Pompano Beach and Broward County Transit. It operates one-hour headways Monday through Friday from 9:00am to 4:52pm. There is no service on holidays or weekends. The route makes the following stops: Northeast Transit Center, Atlantic Boulevard & US 1, Terra Mar Drive & A1A, Atlantic Boulevard & Pompano Beach Boulevard, NE 14th Street & A1A, Pompano Citi Centre, NE 6th Street & US 1 Post Office, and Atlantic Boulevard & NE 26th Avenue (Publix). According to the 2016-2025 Transit Development Plan Update, Annual Report (Oct. 2015), the ridership on the Community Green Route is up 12.8% for the year ending in June 2015 as compared to the same period ending in June 2014.

The Blue Community bus service route is also provided by both the City and Broward County Transit. It operates on 80 minute headways during the weekdays from 8:40-4:37 PM. Destinations along the Pompano Beach BLUE Route include: Northeast Transit Center, NW 15 St and Andrews Ave, SW 3 St and S. Cypress Rd, Northeast Branch Library, Broward Health North, Festival Flea Market Mall and surrounding neighborhoods. Connections are available to BCT routes 10, 11, 14, 20, 34, 42, 50, 60, 83 and US 1 Breeze.

Planned Mass Transit Routes

- According to the Broward County Transit (BCT) Fiscal Year 2016-2025 Transit Development Plan (TDP) Annual Update, there are headway improvements planned for Routes 50 and 60. There are no additional routes planned at this time for the ETOC. During the annual update of the TDP, future improvements may eventually be scheduled.

The route information described above is provided as **Exhibit J**.

2. Quantify the change in mass transit demand resulting from this amendment.

Response: As shown in Section F above, the amendment to the ETOC basket of rights results in a net decrease in PM Peak Hour traffic for the study area as compared to the development potential of the adopted land use designations by 54,984 PM Peak Hour trips. Although the same

could be deduced for transit demand using the typical 1.23% of trips standard, the ETOC future land use designation will make possible future mixed use development that will increase the demand for transit.

The zoning of the ETOC will require transit oriented design which will require:

- No new auto-oriented uses except if designed to be pedestrian friendly.
- On-site transit passenger facilities or project-provided private feeder service to public transit, where appropriate.
- No more than minimum parking required for on-site land uses (if excess parking is provided it will be available to the general public to support nearby attractions that may not provide adequate parking on their own sites).
- Covered bike parking with at least one bike per 10 parking spaces, where appropriate.
- Surface parking lots to the rear or side of buildings (to the maximum extent possible).
- Buildings oriented to the collector or arterial street frontage.
- Pedestrian paths to transit facilities.
- Internal pedestrian connections between all principal buildings and streets with existing transit service.

The improvement plan for the ETOC will include pedestrian friendly landscaping, street furniture, street lighting and other urban design features that encourage pedestrian activity and integrate transit facilities into the surrounding community.

3. Correspondence from transit provider verifying the information submitted as part of the application on items 1-2 above. Correspondence must contain name, position and contact information of party providing verification.

Response: The mass transit verification letter from Broward County Transit is provided as **Exhibit J**.

4. Describe how the proposed amendment furthers or supports mass transit use.

Response: The proposed amendment site is located along Atlantic Boulevard and US1, which are multimodal corridors within Broward County. The transit oriented, mixed use development will, by definition, be designed in a manner that will support and promote the use of mass transit. The City will require transit oriented design in all new development and redevelopment and the provision of transit amenities, as noted above, which would further promote the use of mass transit from and to the ETOC based upon the needs of Broward County Transit and the City's local shuttle program.

H. Provision of Open Space

As applicable, describe how the local government and/or applicant are addressing Broward County Land Use Plan Objective 5.04.00 and Policies 5.04.01, 5.04.02, 5.04.03 and 5.04.04 (a. through e.).

Response: The ETOC is located in an area rich with park and open space facilities. The City is also adopting a series of Regulating Plans to govern the redevelopment of the ETOC that

includes an Open Space and Greenways System plan which identifies the incremental locations of open space and recreational areas to be requested as each block undergoes redevelopment. These areas are all in private ownership so it is not expected that land dedication will be achieved, however, public accessibility and connectivity will be the objective in the development review and design process. The regulations for the ETOC also require public accessibility to the waterfront for all development on the Intracoastal Waterway. This was not previously required by the City's code and will be a significant improvement over what has been done in the past along the ICW.

Redevelopment within the ETOC will not result in any net loss of recreational land or dedicated open space and will not negatively affect the Pompano golf course.

7. ANALYSIS OF NATURAL AND HISTORIC RESOURCES

Indicate if the site contains, is located adjacent to or has the potential to impact any of the natural and historic resource(s) listed below, and if so, how they will be protected or mitigated. Planning Council staff will request additional information from Broward County regarding the amendment's impact on natural and historic resources.

A. Historic sites or districts on the National Register of Historic Places or locally designated historic sites.

Response: Based on a review of the City of Pompano Beach Comprehensive Plan and the Broward County Cultural Resource/Local Areas of Particular Concern Map, there are no designated historical sites located within the amendment area though there are two sites of historical merit to be recognized, as follows:

- Harry McNab Home – 1735 Atlantic Boulevard: 1925-26
- Old Robert McNab Estate – 1736 Atlantic Boulevard: 1925-26

A letter is provided from the Department of State, Division of Historic Resources in Exhibit K. Search of the Master Site File found 139 structures within a half-mile radius of the subject area. The three properties that may be eligible for the National Historic Register according to the Master Site File are not within the study area (410 NE 5th Ave; 217 NE 4th Ave; 210 NE 3rd Ave).

B. Archaeological sites listed on the Florida Master Site File.

Response: Based on a review of the City of Pompano Beach Comprehensive Plan, the Broward County Land Use Plan's Natural Resource Map Series and the Florida Master Site File, no archaeological sites are located within the amendment area. A letter is provided from the Department of State, Division of Historic Resources in Exhibit K.

C. Wetlands.

Response: No wetlands are located within the East TOC.

D. Local Areas of Particular Concern as identified within the Broward County Land Use Plan.

Response: The subject property is *not* within an area designated as a Local Area of Particular Concern by the Broward County Land Use Plan, however the two houses of historical merit noted above are referenced on the Cultural Resource/Local Areas of Particular Concern map.

E. Priority Planning Area map and Broward County Land Use Plan Policy A.03.05 regarding sea level rise.

Response: It does not appear that any significant part of the ETOC is within a Priority Planning Area for sea level rise.

F. “Endangered” or “threatened species” or “species of special concern” or “commercially exploited” as per the Florida Fish and Wildlife Conservation Commission (fauna), the U.S. Fish and Wildlife Service (flora and fauna), or the Florida Department of Agriculture and Consumer Services (fauna). If yes, identify the species and show the habitat location on a map.

Response: The ETOC is nearly 100% developed. There has been no evidence to date of any endangered, threatened or species of special concern located within the East TOC.

G. Plants listed in the Regulated Plant Index for protection by the Florida Department of Agriculture and Consumer Services.

Response: The ETOC is nearly 100% developed. There has been no evidence to date of any plant species listed on the index are located within the East TOC.

H. Wellfields – indicate whether the amendment is located within a wellfield protection zone of influence as defined by Broward County Code, Chapter 27, Article 13 “Wellfield Protection.” If so, specify the affected zone and any provisions which will be made to protect the wellfield.

Response: The amendment site *is not* located within a Wellfield Protection Zone

I. Soils – describe whether the amendment will require the alteration of soil conditions or topography. If so, describe what management practices will be used to protect or mitigate the area’s natural features.

Response: Nearly the entire ETOC study area has been previously developed so no significant alteration of sub-surface soil conditions or topography is envisioned as the area redevelops. All site alterations will be conducted in accordance with the City of Pompano Beach, Broward County DPEP and SFWMD issued permits.

J. Beach Access – Indicate if the amendment site fronts the ocean or would impact access to public beaches. If so, describe how public beach access will be addressed.

Response: The ETOC does not front on the ocean and will not impact access to public beaches except by creating additional housing within walking distance of the beach thus improving public access for those residents and reducing their need to drive to the beach.

8. AFFORDABLE HOUSING

Describe how the local government is addressing Broward County Land Use Plan Policy 1.07.07.

Response: The City will include the following language in the Plan Implementation Requirements section of the City's Future Land Use Element to define the affordable housing requirements for the ETOC:

Affordable Housing:

The ETOC land use plan amendment created 2,399 new residential units and a minimum of 15% of those units (360 units) are required to be affordable or to contribute to the implementation of the city's policies, methods and programs to achieve and/or maintain a sufficient supply of affordable housing in the City.

The City may apply to new housing projects one or a combination of the following affordable housing strategies, without limitation:

- A. Each residential development may be required to set aside a minimum of 15% of their proposed units as affordable housing to provide all or a portion of the required 360 affordable housing units as vertically integrated affordable housing; or
- B. Until such time as all 360 affordable housing units have been provided, each residential development shall contribute in-lieu-of fees multiplied by the number of market rate units per Ordinance 2014-19, as may be amended from time-to-time:
 - to programs that facilitate the purchase or renting of the existing affordable housing stock;
 - to programs which facilitate the maintenance of the existing supply of affordable housing;
 - to programs which facilitate the use of existing public lands, or public land-banking, to facilitate an affordable housing supply;
 - to other programs or initiatives designed and implemented by the city to address specific affordable housing market needs and challenges in the City that may arise including but not limited to, strategies that reduce the cost of housing production; promote affordable housing development; prevent displacement; prevent homelessness; promote economic development; and promote transit amongst low- income populations.

9. LAND USE COMPATIBILITY

Describe how the amendment is consistent with existing and planned future land uses in the area (including adjacent municipalities and/or county jurisdictions). Identify specific land development code provisions or other measures that have or will be utilized to ensure land use compatibility.

Response: The predominant concern regarding compatibility with adjacent land uses deals with building heights and the treatment of service areas adjacent to residential development. The code for the ETOC is more sensitive to these issues than the current adopted zoning regulations. To deal with compatibility at the Comprehensive Plan level, the following language is being incorporated into the Plan Implementation Requirements for the ETOC:

Design principles and procedures will apply to all development and redevelopment within the boundaries of the proposed ETOC, as follows:

Guiding Design Principles and Procedures:

All Applicants with development proposals in the ETOC will be required to attend a mandatory pre-design workshop with the CRA (if within the CRA area) and City's urban design staff prior to Site Plan or Master Plan submittal for official review. Ensuring compatibility with adjacent properties in regard to both zoning designation and existing development will be the focus of the preliminary design meeting. In all cases, the best approach to respecting and designing for the existing context and optimizing compatibility with adjacent properties will be identified. Guiding principles will include specific focus on the following:

Land Use Compatibility:

- Compatibility of adjacent uses by incorporating berms, fences, walls or other appropriate edge treatments along with building design elements that respect existing development but do not impede safe and efficient pedestrian access, where appropriate.
- Building setbacks and heights that address compatibility between proposed and existing development and FAA height limits, if applicable.
- Service areas that do not impact adjacent residential development.
- All land uses, including institutional and utility uses, must be designed to be compatible with adjacent properties.

10. HURRICANE EVACUATION ANALYSIS

(Required for those land use plan amendments located in a hurricane evacuation zone as identified by the Broward County Emergency Management Division).

Provide a hurricane evacuation analysis based on the proposed amendment, considering the number of permanent and seasonal residential dwelling units (including special residential facilities) requiring evacuation, availability of hurricane shelter spaces, and evacuation routes and clearance times. The hurricane evacuation analysis shall be based on the best available data/modeling techniques as identified by the Broward County Emergency Management Division.

Response: The portion of the ETOC east of Federal Highway will be required to evacuate in a Category 2 or higher hurricane. Atlantic Boulevard is an evacuation route. The number of future dwelling units from the additional 2,399 may not all be located east of US 1. For purposes of this analysis, however, it will be assumed that all of the units must evacuate in a Category 2 or higher storm.

It is assumed that 25% of the units in the evacuation area (east of US 1) will not be occupied during Hurricane season which results in approximately 1,800 occupied units.

According to the *Statewide Evacuation Studies Program (Volume 1-11)*, *Broward County Planning Assumptions* document, which is available on the South Florida Council (previously known as the South Florida Regional Planning Council) website, 90% of these 1,800 families will choose to evacuate in a Category 5 storm, or 1,620 units. Assuming the average household size in Pompano of 2.27 persons per unit, the evacuating population will total approximately 3,644 people. The study further identifies that these families will drive 80% of their cars when they evacuate. The number of cars available to these families is estimated at 1.5 cars per unit which is consistent with the parking requirement for those units. This equation results in an estimate of 1,944 cars that will evacuate over a period of hours or days depending on the level of urgency as the hurricane approaches.

The same Evacuation Study determined that 65% of these evacuees will leave the County in the worst case Category 5 storm. Of the 3,644 people evacuating, 35% will stay in Broward County (1,275 people). The study estimates the following destinations for these evacuees:

75% stay with family/friends =	956
15% stay in hotel/motel =	191
8% stay elsewhere such as church or their work place =	102
2% stay in public shelters =	<u>26</u>
Total Evacuees Staying in Broward County	1,275

The public shelter in Pompano Beach is located in Pompano Beach High School, 600 N.E. 13th Ave. The High School is adjacent to the ETOC and just west of US 1, north of Atlantic Boulevard. The City is not aware of any event in which that shelter was at capacity so it is reasonable to assume it can accommodate another projected 26 evacuees.

The same study noted above, *Statewide Evacuation Studies Program (Volume 1-11)*, provided traffic modelling to determine County clearance times based on many scenarios. It was concluded that Broward County's clearance times would range from 12.5 hours to 45 hours depending on the scenario. The maximum population evacuating through Broward County ranged from 176,183 in the best case scenario to 528,550 in the worst case scenario. If all 3,644 people evacuate from the ETOC, they will add only 2% to the roadways in the best case scenario and 0.6% in the worst case scenario. These numbers are not significant.

Based on this analysis, it is assumed that the future ETOC population will not negatively impact hurricane clearance times in Broward County.

11. REDEVELOPMENT ANALYSIS

Indicate if the amendment is located in an identified redevelopment (i.e., Community Redevelopment Agency, Community Development Block Grant) area. If so, describe how the amendment will facilitate redevelopment and promote approved redevelopment plans.

Response: The ETOC amendment is a joint City-CRA planning effort. The ETOC is a total of 279 acres. A total of 194 of those acres (70%) are contained within the East Community Redevelopment Area in Pompano Beach. The proposed amendment is consistent with the East CRA Plan and Massing Analysis completed by the CRA in 2011-12 and updated for this planning initiative. The project creates an opportunity for an efficient use of existing land and infrastructure, fosters a sense of place by creating pedestrian scale commercial uses with upper story residential and will be governed by design standard that result in safe, attractive pedestrian connections between the commercial and residential uses, the beach and the remainder of the City.

12. INTERGOVERNMENTAL COORDINATION

Indicate whether the proposed amendment site is adjacent to other local governments. If so, please provide additional copies for the notification and/or review by adjacent local governments.

Response: The amendment area is *not* adjacent to any other local government.

13. CONSISTENCY WITH GOALS, OBJECTIVES AND POLICIES OF THE CITY AND BROWARD COUNTY LAND USE PLAN

List the goals, objectives and policies of the City and Broward County Land Use Plan which are furthered by the proposed amendment.

Response: The proposed ETOC is consistent with and will further implement the goals, objectives and policies of the City and County Land Use Plan provided in ***Exhibit L*** (City Plan) and ***Exhibit M*** (County Plan).

14. POPULATION PROJECTIONS

A. Population projections for the 20 year planning horizon (indicate year).

Response: The City's Comprehensive Plan provides the following population projections for the year 2015, 2020 and 2025:

Yr 2015	120,161
Yr 2020	120,161
Yr 2025	120,161

Based on the map amendments approved since the 2010 Plan was adopted, the new buildout population estimate is 145,575 without the ETOC amendment.

B. Population projections resulting from proposed land use (if applicable).

Response: The additional 2,399 units will generate an additional 5,446 people between 2017-2030 (based on the 2.27 persons per unit reported in the 2010 Census). This equates to an average increase of 420 persons per year.

The 2014 population estimate for Pompano Beach is 106,105. Based on the 1.6% average annual population growth between 2010 and 2014 (1,565 persons per year) and the addition of approximately 420 persons per year between 2017-2030 based on buildout of the ETOC, the annual population growth to 2030 is estimated to increase by 2,000 persons per year after the year 2017. That results in the following:

Yr. 2014	106,105
Yr. 2015	107,670
Yr. 2016	109,235
Yr. 2017	110,800
Yr. 2020	116,800
Yr. 2025	126,800
Yr. 2030	134,800

Based on the current buildout population of 145,575 plus the residents of the ETOC by 2030, the total buildout population is estimated to be 150,528. The above projections by year result in an assumption that the City will be 90% builtout by the Year 2030.

C. Using population projections for the 20 year planning horizon, demonstrate the effect of the proposed amendment on the land needed to accommodate the projected population.

Response: Based on the current growth rate plus the addition of the ETOC, the population projections for 2015 will not be achieved until approximately 2022 or 7 years later than originally projected. The ETOC will accommodate this additional population in the units proposed for development within this new mixed use district.

15. ADDITIONAL SUPPORT DOCUMENTS

A. Other support documents or summary of support documents on which the proposed amendment is based.

Response: No additional support documents are provided at this time.

B. Any proposed voluntary mitigation or draft agreements.

Response: No voluntary mitigation or draft agreements have been prepared at this time.

16. PLAN AMENDMENT COPIES

A. 15 copies for the BCPC (Please include additional copies, if amendment site is adjacent to other municipalities and/or county jurisdictions). Additional copies may be requested by the Planning Council Executive Director after the initial application submittal.

B. 10 copies of the corresponding local land use plan amendment application, if transmitting concurrent to DCA, including transmittal letter from municipality to DCA.

17. PUBLIC EDUCATION ANALYSIS

Please be advised that the Planning Council staff will request from The School Board of Broward County, as per Policy 8.07.01 of the BCLUP, an analysis of the impacts of the amendment on public education facilities as indicated below. Please note that as per The School Board of Broward County, Florida, Policy 1161, amended and adopted January 15, 2008, the applicant will be subject to a fee for the review of the application. The applicant is encouraged to contact the School Board staff to discuss this review as soon as possible.

1. Identify the existing public elementary and secondary education facilities serving the area in which the amendment is located.

Response: The Schools serving the ETOC area are:

- Pompano Elementary (north of Atlantic Boulevard)
- McNab Elementary (south of Atlantic Boulevard)
- Pompano Middle School
- Blanche Ely High School

Pompano High School is adjacent to the District but is a lottery school and does not have a local district.

2. Identify the existing school enrollment and permanent design capacity of the public elementary and secondary education facilities serving the area.

Response:

Elementary School	2015/16 Twentieth Day Enrollment	2020/21 Projected Enrollment	Permanent Capacity	(Under)/Over Capacity 2015/16
Pompano Elementary	526	525	571	(45)
McNab Elementary	610	633	677	(67)
Total	1,136	1,158	1,248	(112)
Middle School				
Pompano Middle	985	884	1,029	(44)
High School				
Ely, Blanche High	2,108	2,212	2,882	(774)

The School Board provides enrollment projections through school-year 2020/21. All four of these schools are expected to continue to have enrollment below capacity by 2020/21.

3. Identify the additional student demand resulting from this amendment – calculations must be based on applicable student generation rates specified in the Broward County Land Development Code.

Response: The student generation rates in the Broward County Land Development Code (BCLDC) are shown below. The ETOC zoning code limits heights to 10 stories (105’); 5 stories (50’) and 3 stories (35’) depending on the location within the District. It is expected that most of the initial redevelopment will be predominantly in the area allowing 10-story buildings (which meets the definition of High Rise per the BCLDC), however, the mid-rise building type is being utilized for the purposes of calculating the number of students that could be generated by the buildout of the proposed residential basket of rights. There are two blocks that are expected to redevelop in the near term that are limited to townhouses (38 total units). Student generation, therefore, is estimated based on 38 net new townhouse units and 2,361 net new mid-rise units.

**STUDENT GENERATION RATES PER BROWARD COUNTY LAND DEVELOPMENT CODE
SECTION 5-182(m)**

Dwelling Type	Bedrooms	Elementary	Middle	High	Total
Single Family Homes	3 or fewer	0.17276	0.09131	0.10661	0.37068
	4 or more	0.23203	0.11136	0.12242	0.46581
Townhouse	1 or fewer	0.06000	*	*	0.06000
Duplex	2	0.10891	0.04878	0.05615	0.21384
Villa	3 or more	0.17667	0.07568	0.11039	0.36274
Garden Apartment	1 or fewer	0.01293	0.00323	0.00405	0.02021
	2	0.13579	0.05622	0.04433	0.23634
	3 or more	0.19338	0.11324	0.12282	0.42944
Mid-Rise	1 or fewer	0.00788	0.00395	0.00395	0.01578
	2 or more	0.02840	0.01311	0.02053	0.06204
High-Rise	All	0.01013	0.00356	0.00575	0.01944

Student Generation Calculations: ETOC 2017-2030

Unit Type	# Units	Elementary	Middle	High	Total
Townhouse	38	4	2	2	8
Mid-Rise Apartment/Condo	2,361	67	31	48	146
Total	2,399	71	33	51	155

4. Identify the planned and/or funded improvements to serve the area in which the amendment is located as included within the School Board's five year capital plan – provide student demand projections and information regarding planned permanent design capacities and other relevant information.

Response: Currently, no capacity related capital improvements are planned for the above listed schools.

5. Identify other public elementary and secondary school sites or alternatives (such as site improvements, nominal fee lease options, shared use of public space for school purposes etc.), not identified in Item #4 above, to serve the area in which the amendment is located.

Response: There does not appear to be school capacity shortages in the public school system in Pompano. There are, however, several charter and private school options within a reasonable distance from the ETOC should parents find the need to seek alternatives to the public school system.

EXHIBITS

EXHIBIT A
SKETCH AND LEGAL DESCRIPTION

LEGAL DESCRIPTION:

A PARCEL OF LAND BEING A PORTION OF SECTION 1, TOWNSHIP 49 SOUTH, RANGE 42 EAST, A PORTION OF SECTION 6, TOWNSHIP 49 SOUTH, RANGE 43 EAST, A PORTION OF SECTION 31, TOWNSHIP 48 SOUTH, RANGE 43 EAST, AND A PORTION OF SECTION 36, TOWNSHIP 48 SOUTH, RANGE 42 EAST, LYING IN THE CITY OF POMPANO BEACH, BROWARD COUNTY, FLORIDA AND BEGIN MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT THE NORTHWEST CORNER OF PARCEL "A", UNIQUE PLAZA PLAT, ACCORDING TO THE PLAT THEREOF AS RECORDED IN PLAT BOOK 152, PAGE 42, OF THE PUBLIC RECORDS OF BROWARD COUNTY, FLORIDA, ALSO BEING A POINT ON THE SOUTH RIGHT OF WAY LINE OF ATLANTIC BOULEVARD, AS SHOWN ON THE FLORIDA DEPARTMENT OF TRANSPORTATION RIGHT OF WAY MAP SECTION 86130-2520, SHEET 7 OF 11; THENCE SOUTH 89°00'03" WEST ALONG SAID SOUTH RIGHT OF WAY LINE, 23.23 FEET TO A POINT OF INTERSECTION WITH THE SOUTHERNLY EXTENSION OF THE WEST LINE OF THE S.W. 1/4 (SOUTHWEST ONE-QUARTER) OF SECTION 36, TOWNSHIP 48 SOUTH, RANGE 42 EAST; THENCE, DEPARTING SAID SOUTH RIGHT OF WAY LINE, NORTH 01°25'33" WEST, ALONG SAID SOUTHERNLY EXTENSION, 60.00 FEET TO THE SOUTHWEST CORNER OF SECTION 36, TOWNSHIP 48 SOUTH, RANGE 42 EAST; THENCE CONTINUE NORTH 01°25'33" WEST ALONG THE WEST LINE OF SAID SECTION 36 ALSO BEING THE CENTERLINE OF N.E. 5TH AVENUE, 323.10 FEET TO A POINT OF INTERSECTION WITH THE CENTERLINE OF N.E. 1ST STREET; THENCE DEPARTING SAID N.E. 5TH AVENUE CENTERLINE AND SAID WEST LINE AND ALONG SAID N.E. 1ST STREET CENTERLINE THE FOLLOWING THREE (3) COURSES: (1) NORTH 89°07'04" EAST, 1331.24 FEET; (2) NORTH 88°58'09" EAST, 664.35 FEET; (3) NORTH 88°59'03" EAST, 666.69 FEET TO A POINT OF INTERSECTION WITH WEST LINE OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF SAID SECTION 36, ALSO BEING THE CENTERLINE OF N.E. 13TH AVENUE; THENCE DEPARTING SAID N.E. 1ST STREET CENTERLINE, NORTH 01°18'38" WEST, ALONG THE WEST LINE OF SAID S.E. 1/4 AND SAID N.E. 13TH AVENUE CENTERLINE, 371.20 FEET TO A POINT OF INTERSECTION WITH THE CENTERLINE OF N.E. 2ND STREET; THENCE, DEPARTING THE WEST LINE OF SAID S.E. 1/4 AND SAID N.E. 13TH AVENUE CENTERLINE AND ALONG THE CENTERLINE OF SAID N.E. 2ND STREET THE FOLLOWING TWO COURSES: (1) NORTH 88°56'23" EAST, 665.67 FEET; (2) SOUTH 89°34'49" EAST, 663.96 FEET TO A POINT OF INTERSECTION WITH THE WEST LINE OF THE E. 1/2 (EAST ONE-HALF) OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF SAID SECTION 36; THENCE, DEPARTING SAID N.E. 2ND STREET CENTERLINE, NORTH 01°23'34" WEST, ALONG SAID WEST LINE, 1320.98 FEET TO A THE NORTHWEST CORNER OF THE S.W. 1/4 (SOUTHWEST ONE-QUARTER) OF THE N.E. 1/4 (NORTHEAST ONE-QUARTER) OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF SAID SECTION 36, BEING A POINT ON THE NORTH RIGHT OF WAY OF N.E. 6TH STREET, THENCE DEPARTING SAID WEST LINE, NORTH 88°42'24" EAST, AND ALONG THE SOUTH LINE OF THE N.W. 1/4 (NORTHWEST ONE-QUARTER) OF THE N.E. 1/4 (NORTHEAST ONE-QUARTER) OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF SAID SECTION 36 AND SAID N.E. 6TH STREET RIGHT OF WAY LINE, 1327.42 FEET TO THE NORTHEAST CORNER OF THE S.W. 1/4 (SOUTHWEST ONE-QUARTER) OF THE N.E. 1/4 (NORTHEAST ONE-QUARTER) OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF SAID SECTION 36, ALSO BEING THE SOUTHERN MOST SOUTHEAST CORNER OF PARCEL "B", POMPANO BEACH AIR PARK AND RECREATION FACILITIES PLAT, ACCORDING TO THE PLAT THEREOF AS RECORDED IN PLAT BOOK 149, PAGE 20 OF THE PUBLIC RECORDS OF BROWARD COUNTY, FLORIDA; THENCE DEPARTING SAID SAID N.E. 6TH STREET RIGHT OF WAY AND SAID SOUTH LINE, NORTH 01°26'34" WEST, ALONG THE EAST LINE OF SAID PARCEL "B" ALSO BEING THE WEST LINE OF THE N.W. 1/4 (NORTHWEST ONE-QUARTER) OF THE N.E. 1/4 (NORTHEAST ONE-QUARTER) OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF SAID SECTION 36, 276.00 FEET; THENCE DEPARTING SAID PARCEL "B" EAST LINE AND SAID WEST LINE, NORTH 88°42'15" EAST, ALONG THE SOUTHERLY LINE OF SAID PARCEL "B" AND ITS EASTERLY EXTENSION, 599.37 FEET TO A POINT ON THE CENTERLINE OF U.S. 1 (STATE ROAD 5), PER FLORIDA DEPARTMENT OF TRANSPORTATION RIGHT OF WAY MAP SECTION 86020-2525 (3525), SHEET 3 OF 14, LAST REVISED 12-10-98, A 130.00 FEET RIGHT OF WAY AND A POINT OF INTERSECTION ON A NON-TANGENT CURVE CONCAVE TO THE EAST, HAVING A RADIUS OF 5707.65 FEET (THROUGH WHICH A RADIAL BEARS SOUTH 83°08'11" EAST TO THE RADIUS POINT); THENCE DEPARTING SAID SOUTH PARCEL "B" LINE AND SOUTHEASTERLY ALONG THE ARC OF SAID CURVE, THROUGH A CENTRAL ANGLE OF 8°10'29" AND AN ARC DISTANCE OF 814.34 FEET TO A POINT OF TANGENCY; THENCE SOUTH 01°18'40" EAST, ALONG SAID CENTERLINE, 130.81 FEET TO A POINT OF INTERSECTION WITH NORTH LINE OF THE N.E. 1/4 (NORTHEAST ONE-QUARTER) OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF SAID SECTION 36 ALSO BEING THE CENTERLINE OF N.E. 4TH STREET; THENCE DEPARTING SAID U.S. 1 CENTERLINE, , ALONG SAID NORTH LINE AND SAID N.E. 4TH STREET CENTERLINE THE FOLLOWING TWO COURSES: (1) NORTH 88°47'14" EAST, 124.87 FEET TO THE NORTHEAST CORNER OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF SAID SECTION 36; (2) NORTH 88°57'17" EAST, ALONG THE SOUTH LINE OF THE N.W. 1/4 (NORTHWEST ONE-QUARTER) OF THE S.W. 1/4 (SOUTHWEST ONE-QUARTER) OF SAID SECTION 31, 493.60 FEET TO A POINT OF INTERSECTION WITH THE CENTERLINE OF S.E. 17TH AVENUE; THENCE DEPARTING SAID N.E. 4TH STREET CENTERLINE AND SAID SOUTH LINE, SOUTH 01°41'23" EAST, ALONG SAID S.E. 17TH AVENUE CENTERLINE, 486.61 FEET; THENCE DEPARTING SAID S.E. 17TH AVENUE CENTERLINE, NORTH 88°57'14" EAST, 828.42 FEET TO A POINT OF INTERSECTION WITH THE WEST LINE OF THE S.E. 1/4 (SOUTHEAST ONE-QUARTER) OF THE S.W. 1/4 (SOUTHWEST ONE-QUARTER) OF SAID SECTION 31; THENCE SOUTH 01°14'51" EAST, ALONG SAID WEST LINE, 177.20 FEET TO A POINT OF INTERSECTION WITH THE CENTERLINE OF N.E. 2ND STREET, AS SHOWN ON HARBOR VILLAGE, ACCORDING TO THE PLAT THEREOF AS RECORDED IN PLAT BOOK 28, PAGE 34 OF THE PUBLIC RECORDS OF BROWARD COUNTY, FLORIDA; THENCE, ALONG SAID N.E. 2ND STREET CENTERLINE, NORTH 88°48'30" EAST, 209.99 FEET TO A POINT ON THE WEST LINE OF HIBISCUS WATERWAY 100-FOOT RIGHT OF WAY AS SHOWN ON SAID HARBOR VILLAGE PLAT; THENCE, DEPARTING SAID N.E. 2ND STREET CENTERLINE AND ALONG SAID WEST LINE, SOUTH 01°12'43" EAST, 50.00 FEET TO A POINT ON THE SOUTH LINE OF SAID HIBISCUS WATERWAY RIGHT OF WAY; THENCE DEPARTING SAID WEST LINE, NORTH 88°58'10" EAST, ALONG SAID SOUTH HIBISCUS WATERWAY RIGHT OF WAY, 1235.53 FEET TO A POINT ON THE WEST RIGHT OF WAY LINE FOR THE INTRACOASTAL WATERWAY ACCORDING TO THE PLAT THEREOF AS RECORDED IN MISCELLANEOUS PLAT BOOK 17, PAGES 8 THROUGH 10, OF THE PUBLIC RECORDS OF BROWARD COUNTY, FLORIDA;

MEMORANDUM NO. 16-28

DATE: March 14, 2016

TO: Robin Bird, Development Services Director
Jean E. Dolan, AICP, Planning Consultant

FROM: A. Randolph Brown, Utilities Director

SUBJECT: Sanitary Sewer, Potable Water and Drainage Analysis for the East Transit Oriented Corridor (ETOC) Land Use Plan Amendment Application

I have reviewed items 1 through 4 of the sanitary sewer analysis for the referenced application. I have verified the plant and permit capacity information shown and the current demand and flows are correct. The projected flows are realistic given the development projections provided, the current per capita flows and the proposed future land uses. The City can accommodate the projected flows based on current capacity in the sewer treatment system. Each project will be required to determine the adequacy of the sanitary sewer collection system at the time of site plan approval, which is the City's current practice.

In reviewing items 1 through 5 of the potable water analysis. I have verified the plant and permit information shown and the current demand and flows are correct. The projected flows are realistic given the proposed future land uses. It is anticipated, in fact, that the water demand for the proposed ETOC will actually be less than projected in the application because reuse water (purple pipes) is currently available to the cemetery, which provides access to reuse water for the entire area south of Atlantic Boulevard and east of US 1. Reuse water is also serving Pompano High and Pompano Elementary schools which makes this water for irrigation purposes available to all new development north of Atlantic Boulevard and west of US 1.

The City's Code of Ordinances, Chapter 54, requires connection to the reuse system when it is available. This will reduce potable water use for irrigation in the areas noted above. The City can accommodate the projected potable water and reuse water demands based on current capacity in the water withdrawal and treatment permits. Each project will be required to determine the adequacy of the water distribution system at the time of site plan approval, which is the City's current practice. Each project will be required to extend the "purple pipes" to serve the irrigation needs of the project in accordance with Chapter 54 of Pompano's code of ordinances.

I have reviewed the drainage analysis items 1-5 and have verified that the information provided is correct.

Please advise if you need any further verification from the City of Pompano Beach Utility Department.

Importance: High

Dear John - The City of Pompano Beach is amending its Comprehensive Plan to create a Transit Oriented Corridor over the area shown on the attached Exhibit C. The Land Use Plan Amendment Application process requires a letter (email response is acceptable) from the solid waste provider verifying the solid waste information provided in the Application. Please let me know If you have any questions. We greatly appreciate your assistance in completing these Application requirements.

Notes:

- a. Property on Dr. Martin Luther King Jr. Blvd. acquired October 1998 from Sara Harry @ \$75,000 for 0.813 acres.
- b. Liberty Park property acquired from School Board October 1999 @ \$35,000 for 1.13 acres.
- c. Avondale Park site acquired from Gerry Gorman December 1999 @ \$210,000 for 2.5927 acres.
- d. Cresthaven Park acquired by annexation effective September 2000 for 1.43 acres
- e. Cresthaven Elementary School acquired by annexation effective September 2000 for 2.3 acres.
- f. Removed CRA Plat Park 2.3 acres.
- g. Added Canal Pointe Park of 10.744 acres, acquired
- h. Added Hunters Manor, 8.26 acres, acquired July 21, 2000 from Hunter-8 & Landco IV for \$423,915.14
- i. Removed Carver Homes Park of 17.2 acres after Land Use Plan amendment, passed July 24, 2001, Ordinance 2001-77.
- j. Added Cresthaven Park (1.4 acres) and Cresthaven Elementary School (2.3 acres) after Land Use Plan amendment passed January 22, 2002 Ordinance 2002-31.
- k. Added 8.3 acres Hunter's Manor Park purchased through Broward County Safe Parks and Land Preservation Bond Program and removed old Hunters Manor Park (8.3 acres).
- l. Northwest Multi-Purpose Center 13,526 sq.ft on 2.92 acres, southwest corner of NW 6th Avenue and Dr. Martin Luther King Jr., Blvd.
- m. Southwest Multi-Purpose 13,503 sq.ft. on 3.46 acres, SW 36th Avenue and W. Palm Aire Dr.
- n. Canal Pointe Park, new acreage, 12.39 acres
- o. Old Water Tower site at Flagler and SW 8th Street, Coscan, developer of Cypress Grove Townhouses, landscaped site into a park, 0.23 acres
- p. Community Park revised acreage from 67.0 to 71.08 acres based upon Pompano Beach Air Park and Recreational Facilities Plat
- q. Highlands Park, 1650 NE 50th Court, 2.87 acres, added after annexation of Pompano Highlands.
- r. Unnamed Park at NE 42nd Court & NE 15th Avenue, 2.29 acres, added after annexation of Pompano Highlands.
- s. North Pompano Park, 4400 NE 18th Avenue, 20.45 acres, added after annexation of Pompano Highlands.
- t. Norcrest Elementary School, 3951 NE 16th Avenue, 6.20 acres, added after annexation of Pompano Highlands.
- u. Crystal Lake Middle School, 3551 NE 3rd Avenue, 3.16 acres, added after annexation of Leisureville, Loch Lomond, Kendall Green.
- v. Palm View Elementary School, 2601 NE 1st Avenue, , added after annexation of Leisureville, Loch Lomond, Kendall Green.
- w. Broward County Environmental Land, Crystal Lake Sand Pine Scrub Park, 24.25 acres
- x. Broward County Environmental Land, The Jungle in Pompano Highlands, 38.70 acres
- y. Iguana Park, Atlantic Blvd and Cypress Road, 0.94 acres
- z. Cypress Run Alternative School, 5.5 acres
- aa. The city purchased property in Palm Aire containing 4.92 acres at a cost of \$750,000 by Resolution 2009-148 approved on March 24, 2009.

- bb. Added the 3.2 acres in Oceanside Park which was missing from the inventory. This was discovered when the 3.37 acres of that 6.56 acre parcel was converted to CF for Fire Station #11 from the Public Beach acreage on October 26, 2010.
- cc. Added the 1.8 acres for Canine Corner on October 13, 2010.
- dd. Updated park names, added missing parks (Annie Adderly Park, Sanders Park, Lovely Park, NE 16th Street Park, removed duplicate listings, December 2012.
- ee. Removed 5.41 acres from Beach Park for land use plan amendment on Pier Parking Lot converting it to Commercial land use, January 2014.

Item 6.b.-d. Methodology of 2015 Population Figure for Park Requirement

	2015 est.	Buildout
Population	103,811	150,258
Broward County Parks Requirements 311.4 acres (3 acres per 1,000 population)		450.8 acres

Total Parks supplied 506.45 acres 506.45 acres
(If the City adds 10% of the County-owned lands to this total, it becomes 512.745 acres)

Buildout population calculations

76,969	Maximum number of dwelling units allowed by future land use map*
- 10,776	14% of dwelling units held for seasonal use
66,193	Total dwelling units for permanent residents
x 2.27	Persons per occupied dwelling unit from 2010 Census (up from 2.11 in 2000 Census)
150,258	Buildout population projection

* Includes: the 2,399 additional units in the Basket of Rights for the 2016 ETOC LUPA; the net reduction of 207 units from the Jefferson Amendment (even though those are anticipated to be eventually built as flex units); the net addition of 24 dwelling units from the 1600 Corporation Amendment; the net addition of 64 dwelling units by 2 Habitat amendments and the amendment to John Knox Village; the net additional 303 dwelling units by the WH Pompano LUPA; the net addition 1,300 dwelling units by the Isle of Capri RAC LUPA; the net additional 88 units created by the D.R. Horton land use plan amendment in 2013; the 190 units created by the KOI land use plan amendment in 2012; the 187 units created by the St. Joseph land use plan amendment in 2012 and the additional 907 units created by the Palm-Air North amendment adopted in July 2010 and the net additional 58 units allowed by the Pines at Crystal Lake amendment adopted in October 2010.

RE: Transit Service Verification – East Atlantic Transit Oriented Corridor LUPA

Dear Ms. Dolan:

Broward County Transit (BCT) has reviewed your correspondence dated February 26, 2016 regarding the East Atlantic Transit Oriented Corridor LUPA located in City of Pompano Beach for current and planned transit service. The current transit service provided within one-quarter mile from the amendment site include BCT Routes 10, 11, 42, 50, 60, and City of Pompano Beach Community Bus. Please refer to the following table for detailed information:

BUS ROUTE	DAYS OF SERVICE	SERVICE SPAN A.M. – P.M	SERVICE FREQUENCY
BCT 10	Weekday Saturday Sunday	5:20a – 11:51p 5:10a – 11:22p 8:20a – 9:35p	20/30 Minutes 30 Minutes 40 Minutes

* Service enhancements programmed for April 2016

Future fixed-route bus improvements to the routes described above including shorter headways, additional running time, and route extensions are specified in the Broward County Transit Development Plan (TDP) and/or Broward MPO 2040 Long Range Transportation Plan (LRTP). Broward County Transit Division can accommodate additional transit demand, as described in G2 of "Mass Transit Analysis", with the existing and planned fixed-route bus service to the amendment site.

BCT recommends that any proposed redevelopment on the amendment site is designed to provide safe movement for pedestrians and bicycles including connectivity to transit stops within and adjacent to the Amendment site.

BCT fully supports Transit Oriented Corridor designation along the East Atlantic Boulevard corridor as a means to stimulate transit ridership, promote transit oriented development, and create pedestrian-oriented public spaces that will enhance walkability for passengers making connections to destinations and/or other transit services.

If I can be of further assistance on this matter please feel free to contact me by phone at (954) 357-8381 or email nsofoul@broward.org.

Sincerely,

Nicholas A. Sofoul, AICP

Reading A Timetable - It's Easy

1. The map shows the exact bus route.
2. Major route intersections are called time points.
Time points are shown with the symbol □.
3. The timetable lists major time points for bus route.
Listed under time points are scheduled departure times.
4. Reading from left to right, indicates the time for each bus trip.
5. The bus picks up and drops off riders at all BCT bus stop signs along the route where there is a Broward County bus stop sign.
6. Arrive at the bus stop five minutes early. Buses operate as close to published timetables as traffic conditions allow.

**Not paying your fare is a crime per
Florida Statute 812.015.
Violation constitutes a misdemeanor,
punishable by jail time and/or a fine.**

*NOTICE: Proof of age is required for Youth fare (18 years or younger) and for Senior fare (65 years or older). For College Student Bus Pass, a college photo ID card is required. For Disabled and Medicare fare, proof of disability (Medicare card) and photo I.D. is required. Eligible Senior fare patrons are encouraged to acquire their BCT Reduced Fare Photo ID cards.

** Premium Bus Pass can be purchased online at broward.org/bct and at select Broward County library locations.

TRANSFER POLICY 7/10/11

TRANSFERS BETWEEN REGULAR BUS ROUTE SERVICE AND PREMIUM EXPRESS BUS SERVICE

A BCT 31-Day Premium Express Bus Pass is acceptable on all BCT regular bus service. Passengers transferring from regular route bus service to express bus service with an All Day, 7-Day or 31-Day bus pass, must pay a premium upgrade fee of \$1.00. Passengers with a regular 10-Ride bus pass or paying by cash on regular service will not be able to transfer between bus services and must pay the full premium fare when boarding the Express bus.

TRANSFERS FROM BCT TO OTHER SOUTH FLORIDA TRANSIT SYSTEMS

When boarding a BCT bus, passenger pays the appropriate BCT fare and may request a transfer from the bus operator if transferring to Miami-Dade Transit (MDT), Palm Tran or Tri-Rail.

TRANSFERS TO BCT FROM OTHER SOUTH FLORIDA TRANSIT SYSTEMS

When transferring from MDT, Palm Tran and Tri-Rail to BCT regular fixed-route bus service, passenger pays \$.50 with a transfer issued by MDT or Palm Tran and proof of fare payment such as Easy Card and receipt issued by Tri-Rail. Tri-Rail passengers boarding BCT at any locations other than at a Tri-Rail station will be required to pay the full fare.

TRANSFERS BETWEEN OTHER SOUTH FLORIDA TRANSIT SYSTEMS AND PREMIUM EXPRESS BUS SERVICE

Transfers to MDT or Tri-Rail from Express, a transfer is issued and passenger must pay appropriate MDT or Tri-Rail fare.

Transfer from MDT or Tri-Rail to Express, a \$.50 transfer fee is required with the appropriate transfer from MDT or Tri-Rail.

The Express does not connect with Palm Tran.

The Easy Card issued by MDT and Tri-Rail is not accepted as payment on any BCT bus.

PROTECTIONS OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964 AS AMENDED

Any person(s) or group(s) who believes that they have been subjected to discrimination because of race, color, or national origin, under any transit program or activity provided by Broward County Transit (BCT), may call 954-357-6481 to file a Title VI discrimination complaint or write to Broward County Transit Division, Compliance Manager, 1 N. University Drive, Suite 3100A, Plantation, FL 33324

visit our web site at
broward.org/bct or call
customer service: 954.357.8400.

Reading A Timetable - It's Easy

1. The map shows the exact bus route.
2. Major route intersections are called time points. Time points are shown with the symbol □.
3. The timetable lists major time points for bus route. Listed under time points are scheduled departure times.
4. Reading from left to right, indicates the time for each bus trip.
5. The bus picks up and drops off riders at all BCT bus stop signs along the route where there is a Broward County bus stop sign.
6. Arrive at the bus stop five minutes early. Buses operate as close to published timetables as traffic conditions allow.

**Not paying your fare is a crime per
Florida Statute 812.015.
Violation constitutes a misdemeanor,
punishable by jail time and/or a fine.**

TRANSFER POLICY 7/10/11

TRANSFERS BETWEEN REGULAR BUS ROUTE SERVICE AND PREMIUM EXPRESS BUS SERVICE

A BCT 31-Day Premium Express Bus Pass is acceptable on all BCT regular bus service. Passengers transferring from regular route bus service to express bus service with an All Day, 7-Day or 31-Day bus pass, must pay a premium upgrade fee of \$1.00. Passengers with a regular 10-Ride bus pass or paying by cash on regular service will not be able to transfer between bus services and must pay the full premium fare when boarding the Express bus.

TRANSFERS FROM BCT TO OTHER SOUTH FLORIDA TRANSIT SYSTEMS

When boarding a BCT bus, passenger pays the appropriate BCT fare and may request a transfer from the bus operator if transferring to Miami-Dade Transit (MDT), Palm Tran or Tri-Rail.

TRANSFERS TO BCT FROM OTHER SOUTH FLORIDA TRANSIT SYSTEMS

When transferring from MDT, Palm Tran and Tri-Rail to BCT regular fixed-route bus service, passenger pays \$.50 with a transfer issued by MDT or Palm Tran and proof of fare payment such as Easy Card and receipt issued by Tri-Rail. Tri-Rail passengers boarding BCT at any locations other than at a Tri-Rail station will be required to pay the full fare.

TRANSFERS BETWEEN OTHER SOUTH FLORIDA TRANSIT SYSTEMS AND PREMIUM EXPRESS BUS SERVICE

Transfers to MDT or Tri-Rail from Express, a transfer is issued and passenger must pay appropriate MDT or Tri-Rail fare.

Transfer from MDT or Tri-Rail to Express, a \$.50 transfer fee is required with the appropriate transfer from MDT or Tri-Rail.

The Express does not connect with Palm Tran.

The Easy Card issued by MDT and Tri-Rail is not accepted as payment on any BCT bus.

PROTECTIONS OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964 AS AMENDED

Any person(s) or group(s) who believes that they have been subjected to discrimination because of race, color, or national origin, under any transit program or activity provided by Broward County Transit (BCT), may call 954-357-8481 to file a Title VI discrimination complaint or write to Broward County Transit Division, Compliance Manager, 1 N. University Drive, Suite 3100A, Plantation, FL 33324.

POMPANO BEACH GREEN Route

Community Bus Routes and Timetables

Effective: December 2013

CITY OF POMPANO BEACH GREEN COMMUNITY BUS ROUTE

The City of Pompano Beach and Broward County Transit (BCT) have partnered to provide four (4) Pompano Beach Community Bus Routes. This community bus service will increase the number of destinations and connections that can be reached through public transit. Destinations along the Pompano Beach GREEN Route include: Northeast Transit Center, Atlantic Blvd & US1, Atlantic Blvd & Pompano Beach Blvd, NE 14 St & A1A, Pompano Citi Centre, NE 6 St & US1 Post Office, Atlantic Blvd & NE 26 Ave Publix, and surrounding neighborhoods.

Connections are available to BCT routes 10, 11, 14, 20, 42, 50, 60, 83 and US 1 Breeze.

All buses on this route are air-conditioned and wheelchair accessible in accordance with the American with Disabilities Act (ADA). Bicycle racks are also provided. Please refer to this pamphlet for instruction on how to correctly use the Bicycle racks.

The Pompano Beach GREEN Route is free of charge, but riders making connections to BCT routes are expected to pay the appropriate fares.

HOURS OF OPERATION

Monday through Friday

GREEN Route: 9:00 am – 4:52 pm

The Pompano Beach GREEN Route operates approximately every 68 minutes, with assigned stops.

Please refer to the timetable and map on the reverse side of this pamphlet. The bus will operate as close to schedule as possible. Traffic conditions and/or inclement weather may cause the bus to arrive earlier or later than the expected time. Please allow yourself enough time when using this service.

The Pompano Beach GREEN Route will not operate once a hurricane warning has been issued or if other hazards do not allow for the safe operation of the bus.

HOLIDAY SCHEDULE

Pompano Beach GREEN Route does not operate on the following holidays observed by City of Pompano Beach:

- New Year's Day
- Memorial Day
- Independence Day
- Thanksgiving Day
- Christmas Eve/Day

BIKE RACKS

Bike racks are available on the Pompano Beach Community Buses. Bike racks are designed to carry two bikes only. It is important to have the operator's attention before loading and unloading your bike. As the bus approaches, have your bike ready to load. Remove any loose items that may fall off.

Loading

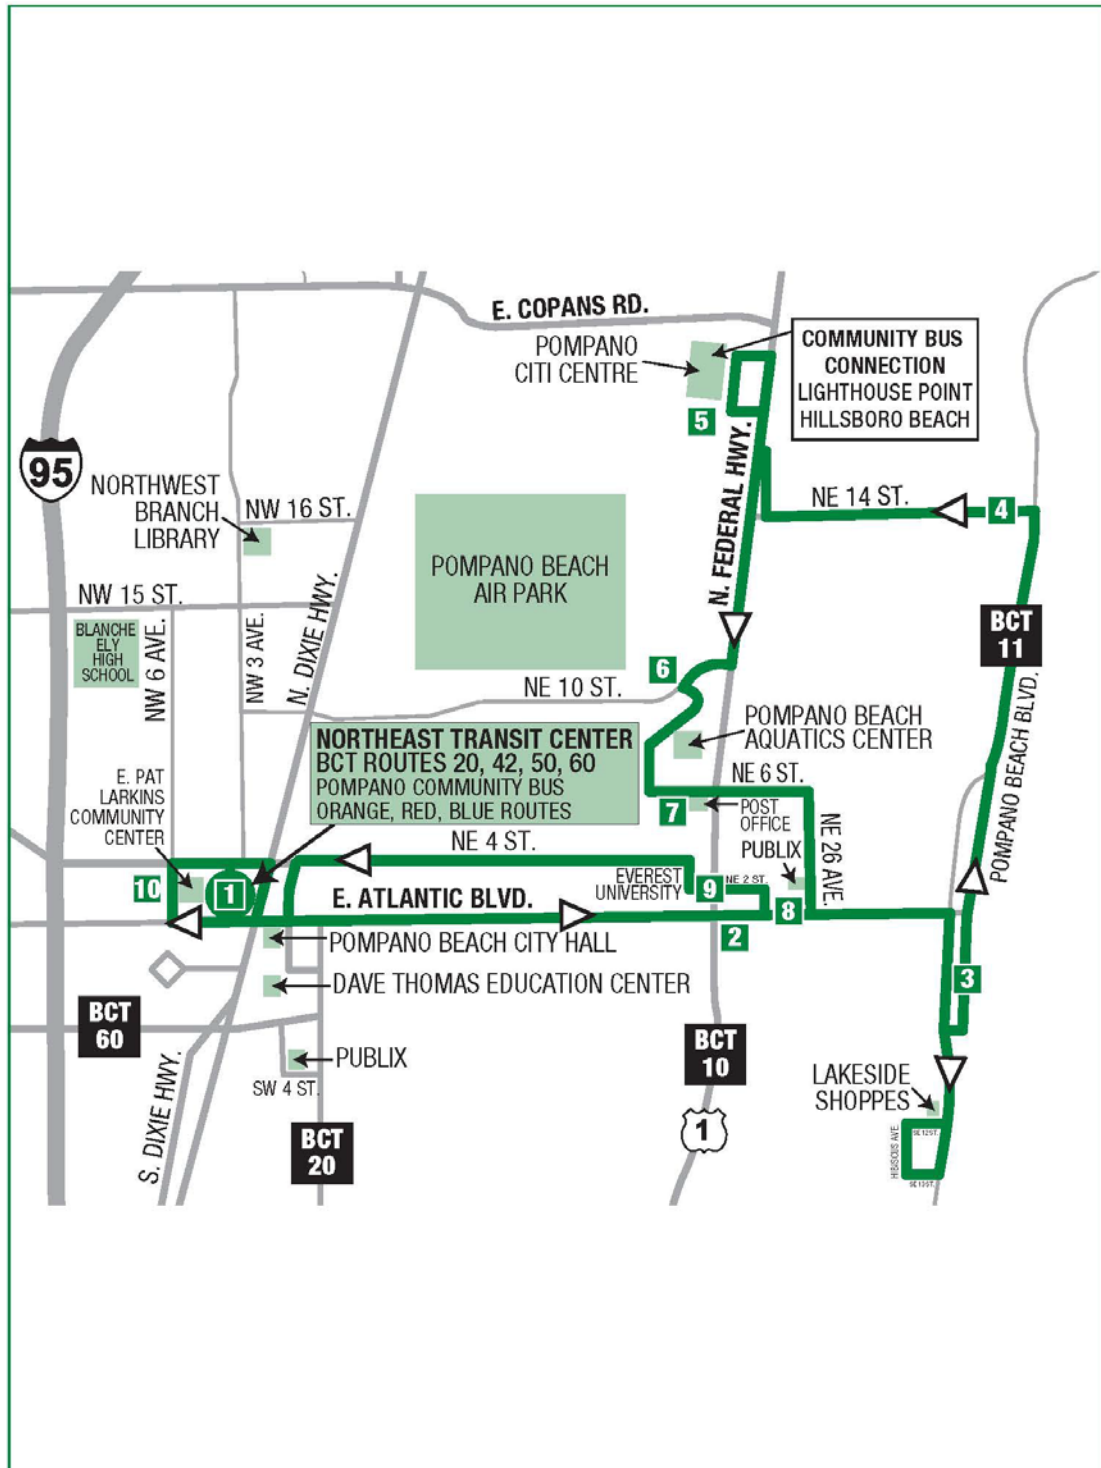

- Always load your bike from the curbside of the street. Lower-Squeeze the handle and pull down to release the folded bike rack.
- Lift your bike into the rack, fitting the wheels into the slots of the vacant position closest to the bus.
- Latch-Pull and release the support arm over the front tire, making sure the support arm is resting on the tire, not on the fender or frame.

Unloading

- Before exiting, notify the operator you are removing your bike.
- Pull the support arm off the tire. Move the support arm down and out of the way. Lift your bike out of the rack.
- If your bike is the only one on the rack, return the rack to the upright position.
- Move quickly to the curb.

PROTECTIONS OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964 AS AMENDED

Any person(s) or group(s) who believes that they have been subjected to discrimination because of race, color, or national origin, under any transit program or activity provided by Broward County Transit (BCT), may call 954-357-8481 to file a Title VI discrimination complaint or write to Broward County Transit Division, Compliance Manager, 1 N. University Drive, Suite 3100A, Plantation, FL 33324.

EXHIBIT K
HISTORIC RESOURCES LETTER

This record search is for informational purposes only and does NOT constitute a project review. This search only identifies resources recorded at the Florida Master Site File and does NOT provide project approval from the Division of Historical Resources. Contact the Compliance and Review Section of the Division of Historical Resources at 850-245-6333 for project review information.

February 29, 2016

Jean Dolan
Pompano Beach Planning Consultant
Phone: 954.253.9270
Email: jdolan10@comcast.net

In response to your inquiry of February 29, 2016, the Florida Master Site File lists no archaeological sites, fourteen surveys, seven resource groups, one bridge, and one hundred thirty-eight standing structures, found in the following parcels of Broward County:

The portions of T48S R42E Sections 35 & 36, T48S R43E Section 31, T49S R42E Sections 01 & 02, and T49S R43E Sections 05 & 06, indicated by the map submitted with search request (including a project area, and a ½ mile buffer).

When interpreting the results of our search, please consider the following information:

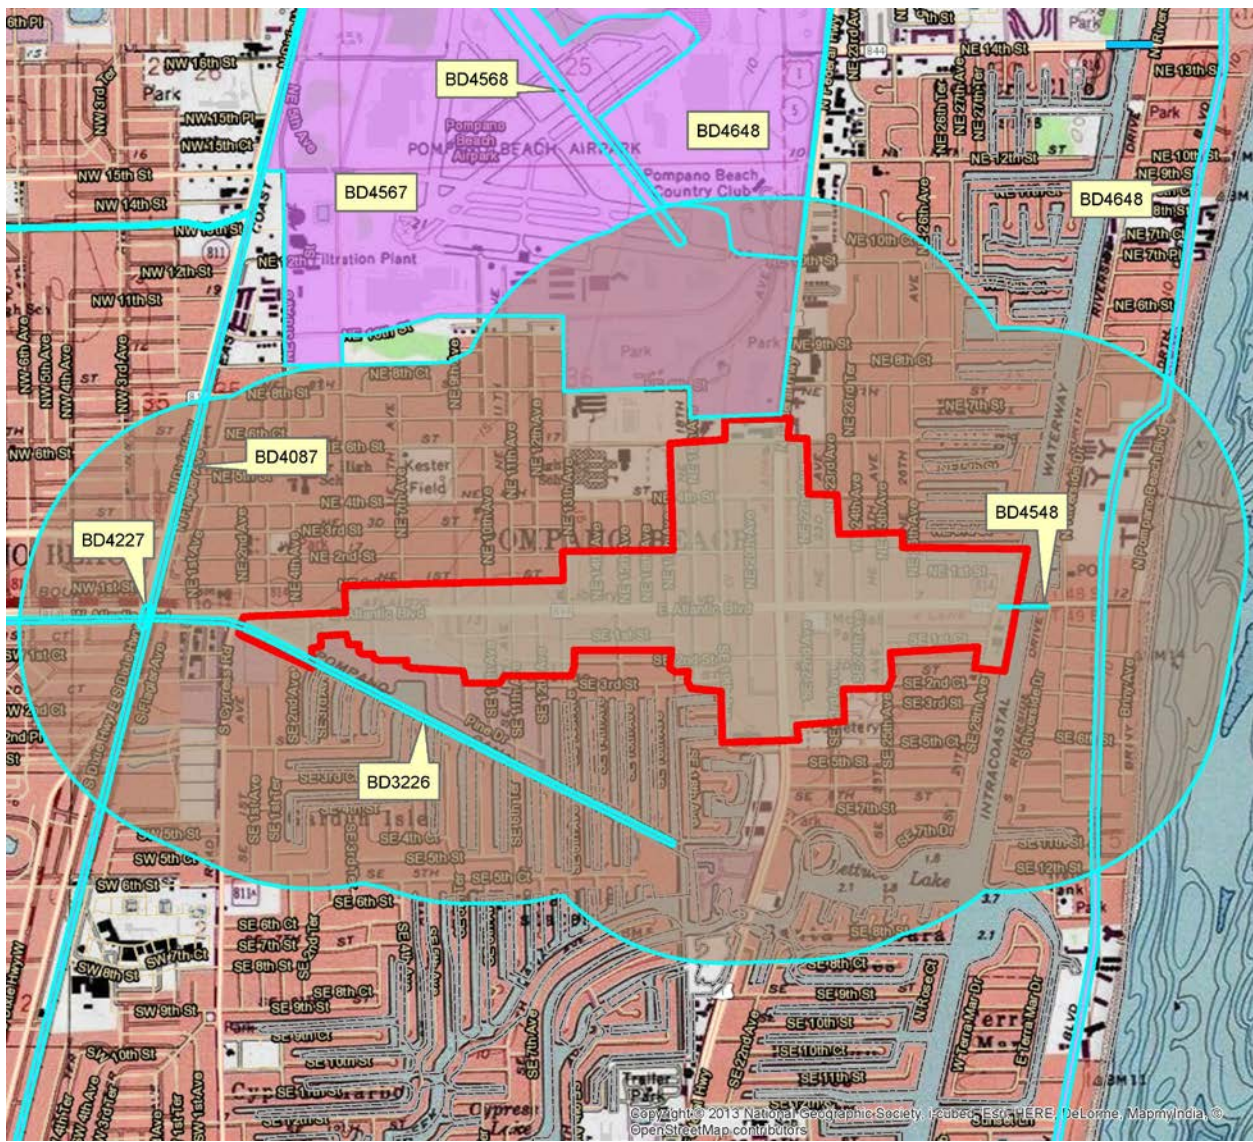

- This search area may contain *unrecorded* archaeological sites, historical structures or other resources even if previously surveyed for cultural resources.
- Because vandalism and looting are common at Florida sites, we ask that you limit the distribution of location information on archaeological sites.
- While many of our records document historically significant resources, the documentation of a resource at the Florida Master Site File does not necessarily mean the resource is historically significant.
- Federal, state and local laws require formal environmental review for most projects. This search DOES NOT constitute such a review. If your project falls under these laws, you should contact the Compliance and Review Section of the Division of Historical Resources at 850-245-6333.

Please do not hesitate to contact us if you have any questions regarding the results of this search.

Sincerely,

Gabrielle McDonnell
Archaeological Data Analyst

EXHIBIT L
City of Pompano Beach
OBJECTIVES AND POLICIES

EXHIBIT L
CITY OF POMPANO BEACH COMPREHENSIVE PLAN
GOALS, OBJECTIVES AND POLICIES
CONSISTENT WITH AND FURTHERED BY THE EATOC LAND USE PLAN AMENDMENT

FUTURE LAND USE ELEMENT

Goal

- 01.00.00 The attainment of a living environment which provides the maximum physical, economic and social well being for the City and its residents through the thoughtful and planned use and control of the natural and man-made environments that discourages urban sprawl, is energy efficient and reduces greenhouse gas emissions.

Transit Related:

- 1.1.7 All site plan applications shall provide pedestrian facilities, such as but not limited to sidewalks and street trees (where not in conflict with underground utilities and permitted by City Engineer)
- 1.1.8 All site plan applications shall identify existing facilities and provide, where deficient, transit improvements, such as but not limited to bus shelters, benches, hardened surface for loading and unloading, garbage cans, bicycle racks and appropriate pedestrian connections along bus route, subject to coordination with Broward County Mass Transit.
- 1.2.10 Where appropriate, approve site plans, plats and other development on the condition the applicant will dedicate additional right-of-way for bus shelters and sidewalks connecting to mass transit facilities including community shuttle buses.

Objective Inconsistent Land Uses

Annually review and periodically update adopted land development regulations and established procedures that encourage the elimination or reduction of uses inconsistent with the City's character and Future Land Use Plan.

Policies

- 1.3.1 Eliminate or reduce nonconforming uses which are inconsistent with the land development regulations and the designations of the Future Land Use Plan map.
- 1.3.2 Consider the preservation of established single family neighborhoods in all rezonings,

*Pompano Beach
EATOC LUPA*

1

*Exhibit L
February 27, 2016*

land use plan amendments and site plan approvals. All Land Use Plan Map amendments and rezonings shall provide for the orderly transition of varying residential land use designations.

- 1.3.6 Consider density and intensity revisions with an emphasis on minimal negative impacts to existing residential areas, particularly single family areas.
- 1.3.7 Consider density and intensity revisions with an emphasis on minimal negative impacts to existing residential areas, particularly single family areas.
- 1.3.9 Establish criteria to protect residential areas and other land uses that are adjacent to industrial and commercial areas from excessive noise, odors, traffic and parking impacts.
- 1.3.10 Discourage Land Use Plan Map amendments, rezonings or other methods that would place residential units into or adjoining industrial land use designations.
- 1.3.12 Consider the compatibility of adjacent land uses in all Land Use Plan amendments and rezonings.
- 1.3.13 The following criteria may be used in evaluating rezoning requests:
 - 1. Density;
 - 2. Design;
 - 3. Distance to similar development;
 - 4. Existing adjoining uses;
 - 5. Proposed adjoining uses;
 - 6. Readiness for redevelopment of surrounding uses; and.
 - 7. Proximity to mass transit.
- 1.3.14 The Future Land Use map and site plans prepared in conformance with the designated land uses will address compatibility with the existing and planned greenways identified on the Broward County Potential Greenways System Map.

Objective Major Corridor Land Use

- 1.4.1 Support and promote the intermix of residential and commercial uses along major traffic corridors.

Policies

- 1.4.2 The Planning Department shall support and promote the intermix of residential and commercial uses along major traffic corridors, where mass transit is available, through the allocation of flex and reserve units and approval of land use plan map amendments allowing for residential developments
- 1.4.3 The City of Pompano Beach shall amend its land development regulations to reduce parking requirements for residential and commercial uses along major corridors where it can be shown that pedestrian amenities are provided, shared parking is provided, or sufficient public parking is nearby.

Objective Natural Resources & Historic Preservation

- 1.6.1 Protect natural resources and historic properties in all land use considerations.

Policies

- 1.6.2 Consider the impacts that land use amendments, rezonings or site plan approvals have on natural resources and historic properties.
- 1.6.3 Refer to the listing of historic properties, buildings and houses worthy of continued preservation prior to issuance of any building or demolition permits.
- 1.6.13 Review all land use plan map amendments, rezonings and site plan applications to insure that there is sufficient potable water resources available and that they pose no noxious impacts to the Biscayne Aquifer.

Objective New Land Use Regulations

- 1.7.1 Encourage the adoption of innovative land development regulations. Adopt new land use designations for Residential, Mixed Use, Transportation Oriented Districts, Transportation Oriented Corridors and amend the land development regulations, including the creation of new zoning districts for these land use designations.

*Pompano Beach
EATOC LUPA*

3

*Exhibit L
February 27, 2016*

- 1.7.3 Continually review and amend new land use designations for Residential, Mixed Use, Transportation Oriented Districts.
- 1.7.4 Evaluate and revise the land use regulations to conform to current development practices as to housing types and mixed use developments.
- 1.7.10 Through ongoing updates to the land development regulations provide criteria/ performance standards provide for the upgrading and redevelopment of existing strip commercial areas to meet current standards and code requirements such as access, landscaping, parking and setbacks.

Objective Community Redevelopment

- 1.8.1 Amend the Land Use Plan map and Zoning map to support new development and redevelopment in the Community Redevelopment Areas.

Policies

- 1.8.2 Follow the recommendation of the Community Redevelopment Plans in all Land Use Plan amendments and rezonings.

Objective Transit Oriented Corridor

- 1.19.1 Facilitate mixed use development with access to transit stations or stops along existing and planned high performance transit service corridors (such as bus rapid transit or rapid bus) designated in the Pompano Beach Comprehensive Plan Transportation Element; the Broward County Transit Master Plan; the Broward County Metropolitan Planning Organization's (MPO) Long Range Transportation Plan; and the Broward County Transit Development Plan, through the establishment of a Transit Oriented Corridor (TOC) land use category.

Policies

Land Use Criteria

- 1.19.2 The City may designate a Transit Oriented Corridor within an area approximately ¼ mile on either side of the mainline transit corridor. The area may extend beyond ¼ mile around all major intersections, activity nodes and in locations served by existing or funded community shuttle service.

- 1.19.3 Residential use is required as a principal component within a Transit Oriented Corridor (TOC). Maximum residential density will be specified by the City and may vary along the corridor. Densities and intensities for the TOC will be described in the permitted uses section of the Pompano Beach Future Land Use Element. Residential densities will be specified either as units per gross acre in geographically designated areas and/or as a maximum number of permitted units (e.g. pool of units in the “Local Activity Center” (LAC) and “Regional Activity Center” (RAC) designations). When the density of the area is specified as units per gross acre the percentage distribution among the mix of uses will also be identified.
- 1.19.4 At least two non-residential uses must be permitted in the designated area as a principal use: e.g. retail, office, restaurants and personal services, hotel/motel, light industrial (including “live work” buildings), research business, civic and institutional.
- 1.19.5 Minimum and Maximum FAR (Floor Area Ratio) for nonresidential uses within a Transit Oriented Corridor will be specified in the permitted uses section of the Pompano Beach Future Land Use Element. Minimum non-residential FARs (Gross) of 2 are encouraged. Nonresidential intensities may vary along the corridor and will be specified either as a maximum FAR in geographically designated areas and/or as an overall maximum square footage by use [e.g. pool of square footage by permitted use (retail, office etc.) or land use category (commercial)]. When nonresidential intensity is specified as a maximum FAR the percentage distribution among the mix of uses must also be identified.
- 1.19.6 Additional or expanded stand-alone automobile oriented uses such as: large surface parking lots, gas stations/auto repair/car washes; auto dealers; self/equipment storage; “big box”/warehouse; single-family detached dwelling units; carwashes; and drive-through facilities are discouraged and will be prohibited or limited unless designed in a manner to encourage pedestrian and transit usage and may be further restricted in the City’s TOC Zoning District regulations.

Design Guideline Principles

- 1.19.7 Applications for the TOC land use designation must address the transition to adjacent residential development and promote connectivity to transit stations and stops.

- 1.19.8 Public plazas, urban open space or green space/pocket park uses that are accessible to the public must be provided as an integrated component within a Transit Oriented Corridor.
- 1.19.9 Areas designated as Transit Oriented Corridors must include design features that promote and enhance pedestrian mobility, including connectivity to transit stops and stations, based on the following characteristics which are detailed further in the City's TOC Zoning District regulations:
- Integrated transit stop with shelter, or station (within the TOC area).
 - Wide (the minimum shall be consistent with ADA requirements) pedestrian and bicycle paths that minimize conflicts with motorized traffic and are adequately landscaped, shaded and provide opportunities for shelter from the elements.
 - Buildings should front the street (zero or minimal setbacks are encouraged).
 - Vehicle parking strategies that encourage and support transit usage (such as parking that does not front the street, shared parking, parking structures, and/or reduced parking ratios).
 - Streets (internal and adjacent to the TOC) should be designed to discourage isolation and provide connectivity (such as streets in the grid pattern).
- 1.19.10 Development within the TOC land use designation must include internal pedestrian and transit amenities to serve the residents and employees within the area (such as seating on benches or planter ledges, shade, light fixtures, trash receptacles, information kiosks, bicycle parking) and other amenities that can be incorporated into adjacent publicly accessible areas and plaza (such as clocks, fountains, sculpture, drinking fountains, banners, flags and food and refreshment vendor areas.)
- 1.19.11 Applications seeking a Transit Oriented Corridor land use designation will demonstrate consistency with the design elements described above and with the implementation strategies in the City's TOC zoning ordinance to ensure the proposal accomplishes the design objectives of the TOC.

Review Process Considerations

- 1.19.12 The transportation impact analysis for a proposed Transit Oriented Corridor designation shall be reviewed and approved by Broward County as part of the County's Land Use Plan amendment process and shall consider the modal shift provided through the provision of transit and the transit oriented design. In addition, the transportation impact analysis shall consider the effects of internal capture as applicable to transit oriented mixed use projects.
- 1.19.13 In consideration of non-residential land uses in areas proposed for designation as a Transit Oriented Corridor, the impact analysis for the designation may be based on the amount of non-residential development which could be permitted as per the intensity standards rather than the alternative 10,000 square feet per gross acre utilized for non-residential impact analysis.
- 1.19.14 An interlocal agreement between the City and Broward County must be executed no later than six months from the effective date of the adoption of a Transit Oriented Corridor which provides that monitoring of development activity and enforcement of permitted land use densities and intensities shall be the responsibility of the City.

TRANSPORTATION ELEMENT

Goal 02.00.00

To develop and maintain a multimodal system which will serve the transportation needs of all sectors of the Pompano Beach community in a safe, efficient, cost effective and aesthetically pleasing manner that promotes the reduction of greenhouse gas emissions.

- 02.01.07 Solicit the expenditure of County Transit Concurrency Impact fees on facilities which best benefit the City of Pompano Beach.
- 02.02.07 Consistent with Policy 3.5.8 of the Broward County Transportation Element, the City will coordinate land use changes to its Future Land Use Map with the County and FDOT in support of a transit-oriented corridor (TOC) zoning district along the 2030 Broward LRTP identified high-capacity transit corridors as a means to increase land use densities and intensity and ensure economic vitality.
- 02.02.10 The City will amend the Land Development Regulations for residential properties along

major thoroughfares as necessary, and where feasible, to encourage higher densities which will in turn serve as a buffer between major roadways and low density neighborhoods, and support public transit. The City will coordinate amendments to its Future Land Use Plan with the County and FDOT and incorporate land use guidelines and site design guidelines in the Land Development Regulations based on the feasibility study and as needed to assure accessibility of new development and redevelopment to public transit.

- 02.02.10 The City will amend the Land Development Regulations for residential properties along major thoroughfares as necessary, and where feasible, to encourage higher densities which will in turn serve as a buffer between major roadways and low density neighborhoods, and support public transit. The City will coordinate amendments to its Future Land Use Plan with the County and FDOT and incorporate land use guidelines and site design guidelines in the Land Development Regulations based on the feasibility study and as needed to assure accessibility of new development and redevelopment to public transit.

Objective Local Transportation

- 2.3.1 The City of Pompano Beach shall ensure that a safe, convenient and energy efficient local multimodal transportation system is provided in an environmentally sound manner.

Policies

- 2.3.2 Develop an improved traffic engineering review process for land development or redevelopment projects.
- 2.3.3 Conduct in depth studies of local neighborhood circulation and, where demonstrated problems exist, implement circulation modifications such as street closure, turn restrictions and allowing for one way movements only.
- 2.3.22 Continue to operate the Community Shuttle Buses as part of the multimodal transportation system.
- 2.3.23 Coordinate with Broward County, the Broward MPO and the FDOT to identify and pursue multimodal funding strategies such as concurrency or mobility fees, matching programs, developer contributions and or additional options when appropriate.

Objective Transit Oriented Design (Local Major Issue No. 2)

- 2.5.1 Encourage transit oriented and or mixed land uses which promote and support public transportation in existing or planned high priority public transit corridors or in areas served by major regional transit stations relative to the City's multimodal system in conjunction with the Future Land Use Element.

Policies

- 2.5.2 Identify transit oriented land uses in designated public transportation corridors which may promote multimodal transportation.
- 2.5.3 The City shall consider implementing the Transit Oriented Corridor (TOC) land use category where appropriate as provided for in the Future Land Use Element Objective 01.16.00 and Policies 01.16.01 through 01.16.05.
- 2.5.4 A transportation impact analysis shall be prepared for proposed TOC and or TOD sites identifying the expected internal capture and the modal shift provided through the provision of transit and transit oriented design.
- 2.7.3 Review proposals for future land use amendments and additional city development in concert with maintenance of the efficiency of the City's multimodal transportation system.
- 2.7.6 The City shall amend the Land Development Code or other appropriate codes to establish strategies that promote the use of bicycle and pedestrian activity.
- 2.7.7 Require the payment of any applicable Broward County Transit Concurrency Impact Fees as a condition for building permit approval.
- 2.7.8 Maintain the requirements of developer sponsored funding of project-related transportation improvements through negotiation and/or application of project impact fees.
- 2.7.9 Require developers to construct transportation improvements in lieu of impact fee donations.
- 2.7.10 Require a traffic impact analysis for any development projects when necessary to determine post-development conditions of adjacent roadways and the local

multimodal transportation system.

- 2.7.15 Support Broward MPO funding for traffic operations improvements with particular emphasis on fully developed roadways such as US 1, Atlantic Boulevard and Powerline Road.

**EXHIBIT M
BROWARD COUNTY
OBJECTIVES AND POLICIES**

EXHIBIT M
BROWARD COUNTY GOALS, OBJECTIVES AND POLICIES
CONSISTENT WITH AND FURTHERED BY THE EATOC LAND USE PLAN
AMENDMENT

OBJECTIVE 1.07.00 LAND USE PLANS AND HOUSING AFFORDABILITY AND
AVAILABILITY

Develop programs to provide a complete range of affordable housing opportunities necessary to accommodate all segments of Broward County's present and future population.

POLICY 1.07.07 For amendments which propose to add 100 or more residential dwelling units to the existing densities approved by the Broward County Land Use Plan, Broward County and affected municipalities shall coordinate and cooperate to implement the affected municipality's chosen policies, methods and programs to achieve and/or maintain a sufficient supply of affordable housing.

Broward County shall accept from the affected municipality those professionally accepted methodologies, policies, and best available data and analysis, which the municipality has used to define affordable housing needs and solutions within the municipality.

In addressing amendments which propose to add 100 or more residential dwelling units to the existing densities approved by the Broward County Land Use Plan, the municipality, without limitation, may include consideration and implementation of the following affordable housing strategies:

- a. programs and policies involving mechanisms such as, but not limited to, impact fees, in-lieu fees, and/or public funds, in which the municipality, and/or Broward County, and/or other appropriate agencies/entities (including, but not limited to, major employers), provide for the construction or supply of affordable housing;
- b. programs and policies involving mechanisms such as, but not limited to, impact fees, in-lieu fees, and/or public funds, in which the municipality, and/or Broward County, and/or other appropriate agencies/entities (including, but not limited to, major employers), provide funding to facilitate the affordable purchase or renting of housing;
- c. programs and policies in which the municipality and/or Broward County, and/or other appropriate agencies, facilitate the maintenance of the existing supply of affordable housing stock, if any;

- d. property tax abatement programs aimed at preserving or creating affordable housing;
- e. streamlined and reduced-cost permitting procedures for affordable housing;
- f. specific minimum set-aside requirements for new affordable housing construction;
- g. use of appropriate existing public lands, or public land-banking, to facilitate an affordable housing supply;
- h. programs and policies to facilitate the development and use of municipal and/or Broward County affordable housing density bonus provisions;
- i. land development regulations which promote the availability of affordable housing such as reduced lot size and floor area for dwelling units, construction of zero lot line and cluster housing, vertical integration of residential units with non-residential uses, and the allowance of accessory dwelling units;
- i. the existing supply of affordable housing.

The affected municipality shall demonstrate compliance with this Policy at the time of the County's consideration of the applicable land use plan amendment, by establishing that the municipality has implemented or ensured adoption of appropriate policy and program measures to implement the affected municipality's chosen policies, methods and programs to achieve and/or maintain a sufficient supply of affordable housing as defined by the municipality's data and analysis.

For the purposes of this Policy, the term "affordable housing" shall include the meaning as defined by the Broward County Land Use Plan. The median annual income estimate should be updated at least yearly.

MIXED LAND USES

GOAL 10.00.00

PROMOTE THE EFFICIENT USE OF PUBLIC FACILITIES AND SERVICES THROUGH PLANNED COMMUNITIES WITH MIXED LAND USES AND CONSIDERATION OF ALL TRANSPORTATION MODES.

OBJECTIVE 10.04.00 TRANSIT ORIENTED CORRIDOR

Facilitate mixed use development with access to transit stations or stops along existing and planned high performance transit service corridors (such as bus rapid transit or rapid bus) designated in the Broward County Comprehensive Plan Transportation Element, the Broward County Transit Master Plan and Broward County Metropolitan Planning Organization's (MPO) Long Range Transportation Plan, Broward County Transit Development Plan, or local adopted financially feasible transportation or transit plan, through the establishment of a Transit Oriented Corridor (TOC) land use category within the Broward County Land Use Plan.

State Road 7, which is an existing transit corridor designated for high performance transit service such as bus rapid transit, or rapid bus by the above referenced plans, may be appropriate for this designation. The Transit Oriented Corridor category may also be applicable along other existing and planned high performance transit corridors designated in the Broward County Comprehensive Plan Transportation Element, the Broward County Transit Master Plan and Broward County MPO's Long Range Transportation Plan, Broward County Transit Development Plan, or local adopted financially feasible transportation or transit plan.

Land Use Criteria

- POLICY 10.04.01 Upon application, local governments must propose a specific land area for designation as a Transit Oriented Corridor. This designation may only be applied to areas within approximately ¼ mile on either side of the mainline transit corridor. The area may extend beyond ¼ mile around all major intersections, activity nodes and in locations served by existing or funded community shuttle service.
- POLICY 10.04.02 Residential use is required as a principal component within a Transit Oriented Corridor. Maximum residential density must be specified by the local government, may vary along the corridor, and must be described in the permitted uses section of the Broward County Land Use Plan. Residential densities may be specified either as units per gross acre in geographically designated areas and/or as a maximum number of permitted units (e.g. pool of units in the "Local Activity Center" (LAC) and "Regional Activity Center" (RAC). designations). When the density of the area is specified as units per gross acre the percentage distribution among the mix of uses must also be identified.
- POLICY 10.04.03 At least two non-residential uses must be permitted in the designated area as a principal use: e.g. retail, office, restaurants and personal services, hotel/motel, light industrial (including "live work" buildings), research business, civic and institutional.

- POLICY 10.04.04 Minimum and Maximum FAR (Floor Area Ratio) for nonresidential uses within a Transit Oriented Corridor must be specified by the local government and described in the permitted uses section of the Broward County Land Use Plan. Minimum non-residential FARs (Gross) of 2 are encouraged. Nonresidential intensities may vary along the corridor and may be specified at the option of the local government, either as a maximum FAR in geographically designated areas and/or as an overall maximum square footage by use [e.g. pool of square footage by permitted use (retail, office etc.) or landuse category (commercial)]. When nonresidential intensity is specified as a maximum FAR the percentage distribution among the mix of uses must also be identified.
- POLICY 10.04.05 Additional or expanded stand-alone automobile oriented uses such as: large surface parking lots, gas stations/auto repair/car washes; auto dealers; self/equipment storage; “big box”/warehouse; single-family detached dwelling units; carwashes; and drive-through facilities are discouraged and should be prohibited by the local government, or limited unless designed in a manner to encourage pedestrian and transit usage.

Design Guideline Principles

- POLICY 10.04.06 Local land use element policies must include guiding principles for municipal design guidelines to adequately address the transition to adjacent residential development and to promote connectivity to transit stations and stops.
- POLICY 10.04.07 Public plazas, urban open space or green space/pocket park uses that are accessible to the public must be provided as an integrated component within a Transit Oriented Corridor.
- POLICY 10.04.08 The municipality shall include within their land use element policies that ensure that areas designated as Transit Oriented Corridors include design features that promote and enhance pedestrian mobility, including connectivity to transit stops and stations, based on the following characteristics:
- Integrated transit-stop with shelter, or station (within the TOC area).
 - Wide (5 feet shall be the minimum consistent with ADA requirements) pedestrian and bicycle paths that minimize conflicts with motorized traffic and are adequately landscaped, shaded and provide opportunities for shelter from the elements.

- Buildings should front the street (zero or minimal setbacks are encouraged).
- Vehicle parking strategies that encourage and support transit usage (such as parking that does not front the street, shared parking, parking structures, and/or reduced parking ratios).
- Streets (internal and adjacent to the TOC) should be designed to discourage isolation and provide connectivity (such as streets in the grid pattern).

POLICY 10.04.09 Local plan policies must include requirements for internal pedestrian and transit amenities to serve the residents and employees within the area designated as a Transit Oriented Corridor (such as seating on benches or planter ledges, shade, light fixtures, trash receptacles, information kiosks, bicycle parking) or other amenities that could be incorporated into adjacent publicly accessible areas and plaza (such as clocks, fountains, sculpture, drinking fountains, banners, flags and food and refreshment vendor areas.)

POLICY 10.04.10 The intent of the required Design Guideline Principles is to provide guidelines for municipal implementation of the Transit Oriented Corridor land use category. Municipalities are encouraged to use some or all of the above design elements, or to develop other design strategies, which accomplish the goals of using design elements to enhance pedestrian and transit mobility. County review of applications seeking Transit Oriented Corridor land use category designations will only determine whether the municipality has adopted, through plan policies, a cohesive set of implementation strategies to accomplish the design strategies sought, and will not seek to require a specific design approach or a fixed set of design approaches as a requirement for County approval of the land use designation sought.

Review Process Considerations

POLICY 10.04.11 The transportation impact analysis for a proposed Transit Oriented Corridor designation shall consider the modal shift provided through the provision of transit and the transit oriented design. In addition, the transportation impact analysis shall consider the effects of internal capture as applicable to transit oriented mixed use projects.

- POLICY 10.04.12 In consideration of non-residential land uses in areas proposed for designation as a Transit Oriented Corridor the impact analysis for the designation in the Broward County Land Use Plan may be based on the amount of non-residential development which could be permitted as per the intensity standards of the effective local government land use element rather than the alternative 10,000 square feet per gross acre utilized for non-residential impact analysis.
- POLICY 10.04.13 An interlocal agreement between the municipality and Broward County must be executed no later than six months from the effective date of the adoption of a Transit Oriented Corridor which provides that monitoring of development activity and enforcement of permitted land use densities and intensities shall be the responsibility of the affected municipality.

LEVELS OF SERVICE

GOAL 11.00.00

PROVIDE LEVELS OF SERVICE FOR PUBLIC FACILITIES AND SERVICES SUFFICIENT TO MEET THE EXISTING AND FUTURE NEEDS OF BROWARD COUNTY'S POPULATION.

OBJECTIVE 11.01.00 ENSURE THAT FACILITIES AND SERVICES MEET LEVEL OF SERVICE STANDARDS

Ensure that public facilities and services meet those level of service standards established within the Broward County Comprehensive Plan and local comprehensive plans.

- POLICY 11.01.01 Local governments shall establish a level of service standard for each public facility located within the boundary for which such local government has authority to issue development orders or development permits pursuant to 9J-5.005(3) Florida Administrative Code.
- POLICY 11.01.02 Level of service standards shall be established within the Broward County Comprehensive Plan for countywide public facilities and services including recreation and regional transportation.
- POLICY 11.01.03 To maintain those level of service standards identified within the Broward County Comprehensive Plan and local comprehensive plans, Broward County shall, prior to final action on amendments to the Broward County Land Use Plan, determine whether adequate public facilities and services will be available when needed to serve the proposed development.

REDEVELOPMENT AND INCOMPATIBLE USES

GOAL 14.00.00

ELIMINATE AREAS OF BLIGHT AND INCOMPATIBLE LAND USES.

OBJECTIVE 14.01.00 REDEVELOPMENT OF BLIGHTED AND DETERIORATING AREAS

Develop and implement land use programs to encourage redevelopment activities within identified blighted and deteriorating areas.

POLICY 14.01.01 The Broward County Land Use Plan shall give priority to plan amendment proposals which are aimed at facilitating urban redevelopment and eliminating blighted and deteriorating areas.

POLICY 14.01.02 The Broward County Land Use Plan shall encourage planned commercial or mixed use centers within non-residential redevelopment areas.

POLICY 14.01.03 Increased densities within redevelopment areas should be supported by plans to address their impacts on existing land uses and residents and by plans to improve community facilities and services.

POLICY 14.01.04 Historic resources within redevelopment areas should be protected and restored.

OBJECTIVE 14.02.00 ENCOURAGE ELIMINATION OR REDUCTION OF INCOMPATIBLE OR INCONSISTENT LAND USES

Develop and implement land use programs to encourage the elimination or reduction of existing incompatible land uses and prevent future incompatible land uses.

POLICY 14.02.01 The compatibility of existing and future land uses shall be a primary consideration in the review and approval of amendments to the Broward County and local land use plans. It is recognized that approved redevelopment plans aimed at eliminating or reducing blighted and deteriorating areas may appropriately promote the introduction of land use patterns in variance from existing land use patterns.

POLICY 14.02.02 Local land use plans shall ensure that commercial, industrial and other non-residential land use plan designations are located in a manner which facilitates their serving, but does not adversely impact existing

and designated residential areas.

- POLICY 14.02.03 In order to prevent future incompatible land uses, the established character of predominately developed areas shall be a primary consideration when amendments to the Broward County Land Use Plan are proposed.
- POLICY 14.02.04 Broward County's local governments shall minimize the impacts of existing incompatible land uses through requirements within their land development codes and regulations, such as buffering and setbacks.
- POLICY 14.02.05 Local governments shall employ their local land use plans and development regulations to establish appropriate intensity standards for non-residential future land use categories compatible with adjacent existing and future land uses.
- POLICY 14.02.06 Local land development regulations shall include requirements for adequate buffering between utilities and any land use which allows residential developments to ensure utilities uses are compatible with residential uses.
