MEMORANDUM NO: 2019-04

DATE: December 4, 2018

TO: Otis Thomas, General Services Director

FROM: Robert McCaughan, Public Works Director

SUBJECT: Request to Piggyback City of Largo Bid No. 17-C-589 Pavement and Roadway Infrastructure Rehabilitation

The Public Works Department requests that the City piggyback City of Largo Bid No. 17-C-589 so Asphalt Paving Systems, Inc. may perform micro sealing on various roads throughout the city as well as a full depth reclamation repair for NW 3rd Avenue. Total amount of work to be performed through the contract is \$611,457.25

We are requesting to piggyback this particular contract as it has established line item costs for pavement reclamation. This type of pavement repair is not unique but it is not commonly provided by most paving contractors as specialized equipment is required. Asphalt Paving Systems owns the reclamation equipment with trained operators and can provide a lower unit cost since they do not have to pass on a rental cost to the City. We have used Asphalt Paving Systems, Inc. in the past to accomplish micro sealing and were satisfied with their work performance.

Asphalt Paving Systems, Inc. has provided quotes for line item costs for the necessary work as established in the contract. Funding for the work to be done on NW 3rd Ave is available in CIP 19-338, Repair NW 3rd Ave, Budget Account Number 302-7616-541.65-12 in the amount of \$312,418.50. The balance of \$299,038.75 shall be funded out of CIP 07-925, Road Resurfacing, Budget Account Number 302-7303-541.65-12.
