

Timeline Display Rendering & Description

1. (2) Free standing curved graphic aluminum frames. includes:
 - 4' wide x 5' tall curved extruded aluminum frames with a maple base plate
 - Double sided 1/8" graphic insert that can be interchangeable with one tool
 - Graphic prints from supplied files, templates to be provided to client
2. Plus a small touch-screen interactive computer kiosk for recipients to further explore the topics on the display that they find interesting. The last item to be shown on the display will be to direct the viewer to see more recent historical events on the interactive computer; thereby ensuring that this timeline is not static.
