Re: Broward Student Rider Agreement

This Agreement will allow EMT and Paramedic students from Broward College to ride with Pompano Beach Fire Rescue during their training program. This is a five year agreement; and in exchange for the agreement we will receive 27 hours of live instructional EMS education free from their EMS faculty, per year, in return. This will greatly assist in our mandatory CE requirement towards state EMT/paramedic recertification

Attached in this accompanying email is the contract to bring this before the City Commission for approval.

Thank you.
