MEMORANDUM NO. 061417

DATE: Wednesday, June 14, 2017

TO: Mark Berman, City Attorney

THROUGH: A. Randolph Brown, Utilities Director

FROM: Maria Loucraft, Utilities Compliance & Efficiency Manager

SUBJECT: Broward County Inter-local Agreement for MS4 Permit

The City of Pompano Beach is one of 29 Co-permittees of the National Pollution Discharge Elimination System (NPDES) permit for stormwater within Broward County. Permit FLS000016-004 is administered by the Florida Department of Environmental Protection. Broward County, as the lead permittee, provides certain technical services for the co-permittees in order to maintain compliance with the permit. These services include the coordination efforts, pursuant to the NPDES Municipal Separate Stormwater System (MS4) regulations, to manage and perform certain technical tasks necessary to determine compliance with the applicable portions of Parts II and V of the NPDES MS4 Permit. The cost to each municipality is based on the population at the time of the 2010 census and the annual projected population served, with the cost to the City of Pompano Beach being approximately \$22,000 per year, with a five year total of (\$110,741), until the time at which the next permit is issued (exhibit B).

A resolution is requested to provide for the authorization of the proper City officials to execute the agreement between the City of Pompano Beach and Broward County. This agreement will begin on the effective date and be in effect for the duration of the fourth cycle of the NPDES MS4 permit.

This item directly supports City Strategic Plan Quality and Affordable Services Objective 1.6.4 Achieve 100% compliance with NPDES permit.

The funding for the agreement is available through the stormwater rates in account 425-38-05-538-46-50.
