

Exhibit A

January 10, 2019

Cost Estimate for Overhead Utilities to Underground Conversion @ Sheehan Cadillac

Total feet (includes US 1 and NE 51 st St)	1200 feet
FPL Costs (includes \$95 K hardening credit, see attached)	\$210,000
Comcast and AT&T (30% of FPL Costs prior to hardening credit)	\$95,000
Total	\$305,000
Engineering and PM (15%)	\$45,000
Grand Total	\$350,000
City Contribution of 40%	\$140,000 (Not to Exceed)

Re: Overhead to Underground Conversion -- 5101 N Federal Hwy, Pompano Beach

Dear John Sfiropoulos:

In response to your request for a cost estimate on September 10, 2018, to convert FPL overhead feeder cables to underground the non-binding "ballpark" estimate is \$310,000 with a consideration for an estimated hardening credit of \$95,000. This amount is an "order of magnitude" estimate only. This estimate is not an offer from FPL to perform the requested work and should not be construed or used as such for detailed planning purposes. It is provided strictly to assist your preliminary decision making. FPL shall not be held liable for any variations that may occur between this "order of magnitude" estimate and any detailed cost estimates that may subsequently be provided by FPL. Applicant understands that this "ballpark" estimate is solely for the relocation of FPL facilities. It is the Applicant's responsibility to contact the owners of facilities co-located on FPL's poles (such as telephone, cable and wireless/cell phone providers), and to negotiate, and pay the cost of, the relocation of such facilities.

Should you desire to pursue this matter further by requesting a "binding" detailed Engineering Cost Estimate, an engineering deposit in the amount of \$1,500.00 will be required. This request must be made in writing and shall specify, in detail, the scope of work to be included in the estimate. Binding Detailed Engineering Cost Estimates are valid for six months and subject to change in the event of a work scope change.

Should you pay an engineering deposit and elect to have the work performed (the work included in the estimate for which the deposit was paid), that deposit will be applied to the FPL work order as Customer Contribution in Aid of Construction (CIAC). This applied amount would contribute toward the total CIAC amount determined by the detailed cost estimate, if the CIAC is paid while the estimate is valid. If you elect not to have that work performed, or if no CIAC payment is made while the estimate is valid, the deposit will be withheld by FPL to defray a portion of FPL's cost to produce the estimate. Should additional detailed estimates be required for work not included in the original request, you may be required to pay any additional FPL engineering costs to produce those estimates.

Should you have any questions or wish to consider a binding cost estimate, please call me at 954-956-2010.

Sincerely,

Akeem Bakare
Project Engineer

TO BE UNDERGROUNDED
