### MEMORANDUM #2020-71

**DATE:** August 6, 2020  
**TO:** Gregory P. Harrison, City Manager  
**FROM:** Nathaniel J Watson, Water/Reuse Construction Manager  
**VIA:** Brian Donovan, Assistant City Manager  
A. Randolph Brown, Utilities Director   
Benjamin R. Bray, Utilities Field Superintendent

**SUBJECT:** Ordinance: Award Contract for Cured in Place Pipe Rehabilitation

---

#### **Approval Request:**

Commission approval to award negotiated contract "Cured in Place Pipe Rehabilitation" resulted from Bid T-01-20 to lowest bidder and highest ranked firm Insituform Technologies, LLC.

#### **Explanation:**

The City's Wastewater cured in place pipe rehabilitation program is a cost effective maintenance that prolongs the beneficial life of the sanitary sewer collection system.

The cured in place pipe process is trenchless which results to little construction impact to the community. The lining provides an inner structural protective seal upon existing sewer collection pipe which prohibits infiltration and exfiltration of the system and improves upon water quality.

#### **Recommendation:**

Based on the submitted information and the Utilities Department evaluation process for new material and application, the Department recommends approval to award negotiated contract "Cured in Place Pipe Rehabilitation" resulted from Bid T-01-20 to lowest bidder and highest ranked firm Intercounty Engineering Inc.

Procurement of this service shall be through the following budgeted account:

- ❖ 420-7248-535.65-12
- ❖ 426-7586-538-65-12
