From: Ms. Phyllis Smith

Re: Sports Residences on 31st Ave. & Kensington 20 on NW 27th Avenue

For too long Collier City has been lacking investments and new developments. With the Public private partnership between the City of Pompano Beach and the Azur Group, we finally have a winning team in place.

As such, the Collier City Civic Association expresses its full support for all the developments planed in Collier City for which we have been consulted and were able to provide valuable input. With the planning of new and exciting Townhouses and a Sports Complex coming to our neighborhood, it is a bowl of fresh air that engulfs the residents and provides the hopes that our future looks bright.

Mr. Gotsman has met with the Greater Collier City Civic Association on many occasions and has presented his projects thoroughly. In these meetings, he only received praise and enthusiasm and all are excited to see them coming to fruition. We were shown multiple renderings of the townhouses that the Azur Group is proposing to build on the sites on 31st Avenue and 27th Avenue and they have peeked excitement in the community.

To these projects, we stand in favor and cannot wait for the end product.

Thank You,

Phyllis Smith
President
