NOTE: The completed Evaluation Criteria forms reflect the original and revised scores completed by each Selection/Evaluation Committee (Committee) Member during the initial meeting held September 7, 2021 and the meeting held September 30, 2021. Due to a mathematical error discovered in the Financial Proposal calculations; in an effort to be open and transparent, the Committee convened on September 30, 2021 in a publicly held meeting so that the Solid Waste Services Director could provide clarity and allow the Committee Members an opportunity to review and rescore their respective points allocated for Option A, Option B, and Option C of the Financial Proposal criteria, which has been notated by each Committee Member on these same completed Evaluation Criteria forms as "A", "B", "C". Due to the revisions in scoring, the Total Score reflected on the completed Evaluation Criteria forms is not in final as provided herein.
