Summary Explanation/Background:

We applied for a grant from the State of Florida Department of Environmental Protection (FDEP) and was awarded \$287,500. The remaining project cost will be supplied by State Revolving Fund through FDEP. This project was listed as a priority and the State is willing to provide \$496,400 to the City with \$154,100 to be forgiven. This means that the City will only need to repay \$342,300. This amount will be taken from the Water and Sewer CIP. In order to secure this loan, the City has to submit a fully completed loan agreement approved by our Commission no later than December 6, 2018.
