P.H. 2017-70: (PUBLIC HEARING 2ND READING)

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF POMPANO BEACH, AMENDING CHAPTER 151, "BEACHES AND WATERWAYS," OF THE CITY OF POMPANO BEACH CODE OF ORDINANCES BY AMENDING SECTION 151.05, "SEAWALLS," TO MODIFY REQUIREMENTS FOR CONSTRUCTION OR REPAIR OF SEAWALLS AND BY MODIFYING REFERENCES; AND BY AMENDING SECTION 151.08, "STRUCTURES ON WALLS," TO MODIFY THE TYPES OF STRUCTURES THAT MAY NOT BE ERECTED ON TOP OF OR OVER SEAWALLS; PROVIDING AN EFFECTIVE DATE.
(Fiscal Impact: N/A)

FIRST READING: JULY 11, 2017

TABLED FROM JULY 25, 2017

(Staff Contact: John Sfiropoulos)

Summary Explanation/Background:

Two (2) sections of Chapter 151 are proposed to be revised:

Section 151.05 (C):

The intent of residents raising seawalls is to protect their properties from rising tides. The current Code requires a stepped transition between two adjacent seawalls at the side property lines where there is an elevation difference of 7-inches or more. This stepped transition however poses a breach between the seawalls, which would allow rising tides to enter through. The Marine Advisory Board (MAB) along with Engineering recommends amending the Code eliminating this requirement for a stepped transition. Research into several neighboring cities has been conducted by the MAB and this stepped transition is not included in their Codes.

Section 151.08:

Currently our Code is ambiguous to what is permitted to be installed on top of or over a seawall. Based on the Marine Advisory Board's research of neighboring cities, Pompano Beach is the only City that prohibits the installation of lifts, cleats, davits, etc., on seawalls which proves to be challenging for residents, however it is silent to other structures such as terraces, retaining walls, stairs, etc., that are not recommended to be installed on seawalls. This proposed amendment will better clarify what is permitted to be installed on top of or over a seawall.
