### Summary Explanation/Background:

This is the second reading of the text amendment ordinance for the 282 acre East Transit Oriented Corridor (ETOC). The proposed text amendment for this land use change will allow for 3,718 dwelling units (net new 2,399 units) and will allow up to 7 million square feet of nonresidential uses, 5.5 acres of parks and recreation (minimum) and 5.0 acres of community facility land uses (minimum). This text amendment establishes the maximum development rights for property within the ETOC. The proposed text amendment also includes design guidelines and principles to ensure a focus on land use compatibility, connectivity, historic resources and affordable housing. This amendment was unanimously recommended for approval at the first reading by City Commission on June 28, 2016 (minutes are attached) with the addition of one WHEREAS clause stating the maximum building heights. These height limits are reflected in the

Ordinance for second reading and in the East Overlay District (EOD) zoning regulations proposed for second reading at the same hearing as this Comprehensive Plan map and text amendments. The legal description attached to the Ordinance has been corrected since first reading of the Ordinance in June 2016. It should also be noted that the ETOC Map amendment agenda item is a companion item to the text amendment.
