### Summary Explanation/Background:

In June 2013 the City of Pompano Beach Stormwater Master Plan was updated to identify any deficiencies in the existing stormwater management system and to recommend system improvements to alleviate flooding problems within public right of way areas. The Stormwater Master Plan allows the City of Pompano Beach to understand the necessary drainage improvements over the next few years and to budget accordingly. The Stormwater Master Plan has identified the N. Riverside Drive and N.E. 14th Street Causeway area as a priority for potential flooding.

**Origin of request for this action:** Engineering

**Fiscal impact and source of funding:** \$104,929.00 CIP 19-350 / 426-7628-538.65-03
