Summary Explanation/Background:

Section 75 of the recently adopted House Bill 1193, provides that licenses and fees to operate mobile food dispensing vehicles, which includes food carts per the definition, are preempted to the State. The City can no longer require a mobile vendor to obtain a license, registration or permit in order to operate in the City. The City also cannot prohibit mobile vendors from operating within the City. Municipalities are not, however, prohibited from regulating the operation of mobile food dispensing vehicles.

The amendments remove the requirements to obtain a Business Tax Receipt and pay City fees in order to operate. The text amendments extend the ability to operate on private property to the I-1X Heavy Industrial Zoning District and O-IP district. Staff is also revising Chapter 155 zoning code, to include a reference to this use.

The enclosed code amendments represent the revisions needed to comply with the State Statutes. The goal is to ensure the safety of pedestrians, vendors and motorists. Several regulations not directly related to safety were removed. Several other code provisions were reorganized for clarity; therefore, while there appears to be significant revisions, much of the underlined text is not actually modified regulations.

Please note, food truck or mobile vendors not covered by this code section can also be approved by a Special Event permit. This process covers most of the food truck events seen throughout the City.

The Planning & Zoning Board unanimously recommended approval at the September 23, 2020 P&Z meeting.
