Summary Explanation/Background:

The Fire Department engages in an annual strategic planning process that coincides with the City Strategic Plan. The intent is to identify the future needs with a consideration of the economic realities that are currently in place and those that are likely to occur in the future. The Commission for Fire Accreditation International (CFAI) - the entity that accredited the Fire Department - also requires a formal process for the City Commission to adopt the internal strategic plan. There is additional supporting information in the memorandum that is included in the back-up materials.
