Summary Explanation/Background:

This Amendment to our five-year service agreement with Miller Electric, is for the purchase, installation, and maintenance of ALPR (Automatic License Plate Recognition) and Video Security equipment and services. This was put forward to the City Commission as an ordinance for a bid waiver due to standardization that is allowed for in the General Services Manual.

Miller Electric installed our ALPR system as a subcontractor of Johnson Controls who was awarded a contract with RFP H-45-13 "Automatic License Plate Recognition System" and is the only certified and approved Genetec AutoVu vendor for the Southeast US territory that can sell and service our existing Genetec System. Miller electric holds the CJIS (Criminal Justice Information System) certification required to work with this sensitive data.

Having Miller Electric perform installations and maintenance will ensure the proper functionality and timely completion of future ALPR and Video Security projects.
